LEAFY AND GREEN

LEAFY AND GREEN

*To love this leafy and green,
it seems unforgivable sin,
to love this leafy and green in the April rain,
I know, you'll never excuse me,
your words will come to confuse me,
so that I'll never be able to love this leafy and green again.*

*To love your sunny and blue,
it was unbelievably true,
to love your sunny and blue in the summer sky,
I knew, you'd never forsake me,
your love would be there to make me,
happy to love only you and never see that it was a lie.*

*To love this leafy and green,
as I have been always so keen,
to love this leafy and green where I'm free to fly,
I know, you'll never forgive me,
your lies will come to deceive me,
so that I miss what I love, since you don't care if I live or die.*

really, of the Italian type, but Sibelius
been so jazz orientated, doesn't recognize its functionality
as such and has no symbol for it.
