HARD NEWS

T, R: a great part of the reason we kept even with the radio bill is that Rainbird tithed from the income from the teaching she did last weekend.

• **This world is going through a change it has never gone through before – EVER!**

- Rounding up criminals who have violated Nature and Nature's god is what the White Knights are doing; this descension into matter was an experiment when we asked Mother could we have a chance of exercising our own creativity and descend into matter, have a veil and give ourselves an

opportunity to see if we could remember our divine nature and bring the descent into matter back up into the ascent: we are all Children of Light and have been in a very grand experiment that is pretty scary at this moment; to be playing with nuclear things at this time – it's a game of Jeopardy: we got our hands on how to do certain things without the equivalent evolution in intention and spirituality.

- Yet the energies are pouring in and we could go into distrust; As Rainbird said, this is a time in the Mayan energy of resonance: this is the time to embrace trust – also in the I Ching.
- Whatever contribution you can make and make a place in your heart for a contribution
 - many of us have skills & gifts from which we can create abundance and then tithe from what we gain – NESARA is about the same sort of thing
- Rachel last night talked about the Republicans getting together with the American Family Association which is described as a hate group.
 - Brian Fischer was the person fired, and the ass'n officially rejected some of what he was saying. Yet he still works on their radio program
 - This country is a melting pot of religions, science, politics, colour etc and we have to discern who we are and what we stand for
 - He said that those who came to these shores would be expected to adopt the religion of the new country: that is, Christianity. And we are having these calls to learn the history of the country and that **some of the Founding Fathers were deists**, not Christians
- There are 2 banners [flags] the Moroccan Moorish flag [and the original american flag] going back in history, the entire eastern seaboard of the US was part of Africa where Morocco is before the Great Flood which is when we experimented with the Great Crystals: we wanted to take China over and all its palaces and temples.
- The whole saga about Brian Fischer and Republicans is about them all going to Israel for 9 days! And not too long after that, Netanyahu is coming back and making a speech about starting war with Iran

R: He hardly knows how to describe what we are watching, except to say It is sci fi at the greatest level but we come to our own rescue, right now, and we are coming from our own future to save ourselves, and how fantastical is that! The larger picture is we have to step into the rabbit hole and take a quantum leap; we are in non-ordinary reality, the naqual – and death walks with us on our shoulder.

T: NESARA is really about us saving ourselves and why we need to support these endeavours.

Conference Call

Caller: asking about **Conversationswithgreat minds.com** and Professor Sue
Race Talk and the conspiracy of Silence: Understanding and Facilitating difficult dialogues about race

- took a video showing the log cabin on the property so he can renovate, and wants to make a shrine to 4 races = the black, red, yellow

T: suggests keeping something of the old

- reminds of what the speaker said about the academic realm where things are considered at the cognitive level

Caller: the races came together to discuss problems

- the ancestors told him they want him to re-enchanted the place and restore the energy of the time

T: thinks the idea is very workable – he is talking about an energy that is universal and will help the world move out of the barbarian stage

Caller: as the white person who has had the pain, he can do this

T: when Rama and Tara came to his place, the entrance overwhelmed them. The next they understood was that he was there for the land and the land was waiting for him.

Caller: active in the efforts to stop a pipeline from going across Virginia; they returned the letter with a polite dismissal; he re-worked the letter, had more signatures & sent it to gov officials and others

- wants to form a Virginia citizens Corp. and enroll 1 million at \$20 / year = a \$20 million budget which would have some clout; operate it and create a strong mandate for the environment and the common good of the people of Virginia; it might serve as a model for other states to form their own citizens corporation.

T: it would require that he questions a lot; NESARA is going to gut a whole bunch of corporations – she is not so sure that jumping into that world is a good idea; might find some vipers hanging around!

- Another suggestion: what is really growing exponentially is **not forming corporations, but cooperatives** – they are usually the 501 c thing – we are right on top of things changing.

Caller: like the mondragon thing!

T: it's in Spain and millions are involved there

Caller: for the small price of joining, they would have a lot of clout!

T: a young lady of about 20 – worked at making the land have rights: the water, the land, the minerals, etc – which means they cannot come in and throw you out with

Lyn: provides the following links:

- ecosystemrights.org
- citizensrights.org
- sustainablecommunitydevelopment - working on all kinds of projects and ordinances
- transitionaltownsmovement
- ppehrc – a powerful group working towards poor peopleseconomichumanrights coalition.org

Patti: you called? Just saying “hi”

T: This is cross linking organizations which is good

Lyn: THE NESARA LAW: GO TO OCCUPYECONOMY and get the information from the pdf on our site over to them

T: this would be good for Philip and Patti after looking at what the options are, make a plan to see what is possible: like taking that old slave house on the land and renovating it

- the land is in Churchville, Augusta County VA – near the city of Stanton
- the nature of that land is so important; it is linked to the history of the US – historic land cannot be violated as there are more rules
- Nature Conservancy is another angle
- What he is embarking on will be something that is setting a precedent for other locations in the US

CallerAZ: has a sister and husband who are members of an archeological society, do digs on indian land and catalogue finds – can have certain areas declared as sacred areas as required: is there an archeological society in VA he can go to?

T: start with the ecosystem people and dovetail the rest of them
talk to the alternative minded folks about how to get around difficult people in gov't

Caller from Georgia:

1. to encourage all to stay on a high vibe as possible – there were a couple of ethnic references in the conversation that were not of the highest vibration
 - a reference to rednecks; a white N word – might need to be more respectful

T: what Philip said

2. a question for Rama: reference to Loretta Scott King as the madam – please elaborate on that!
 - Loretta Scott King was a lady of the night; a madam; she had a boudoir where ladies had sex with men
 - when R was growing up, he got kicked out of a lunch counter for eating with his black and white sister in 1963 – what we have now is Jim Crow has been brought out by the Koch bros – the apathetic attitude that my vote does not count. Until we really get NESARA, all voting is rigged to a huge degree – yet they didn't win for all that.

T: knows what it means to be clumped together to look like a redneck, vs being that.

- Yet the elucidation described by Penny was about an attitude; a word is a word until one makes themselves through experience worthy of being that word
- Phil might be looking like a white N word to someone, but not to use that word; don't be angry and judge not that we be judged.
- We take a good meaning from what Georgia said: as we stop attributing that to a mindset it might diminish. All white people are a minority inf Santa Fe – more native americans than Spanish and Arabs here too: the Arabs brought the adobe style of building to NM – also have amazing mosques here; the Sufis have a centre there too.

Caller: let's be 5 D and leave those references behind us, even the use of the word “minority”

- Wants to know if there are any public references to Loretta Scott King – MLK told Tara that this was true: do not judge it as that was what made them money to carry on! She was murdered by them

Cmdr Paul: thanks for the work they do!

- Thanks to all and to Paul for the pictures he sent of orbs and space ships
- Last Monday, he & a friend made a presentation at Cosmic Cafe in Seattle; the people were open to it!

T: suggests using the material on NESARA on the website and use it for the people

CP: has met some of the farmers doing things about the Fed Reserve; put in jail for it!

- On Sunday, the Patriots and the Seahawks are playing
- FEMA is to be the security, he heard to day – warming people in AZ they may contract measles – he put that in the Circle of Support.

T: encourages people not to buy into that fear: getting vaccinations is the way the diseases spread in the first place and, as peoples' immune systems are compromised already, the vaccinations move things along.

CP: sends love and pink light on Sunday and before.

T: Sister Helen Andrasko's mum passed over yesterday at noon – she was 99 in Connecticut

- had a peaceful transistion and was ready to go
- this is another one rooting for us from the other side!

CP: a friend at 100 passed away – a very spiritual friend – kept CP in balance!

T: all of the contributions of those before us, and our elders now – the ability to reduce the aging process is more and more possible

R was talking to someone today and saying that the Bush/Clinton Crime Family got themselves immunity – just another thing they did that they called legal

Caller CA: an up date on the lawsuit filed by Goerge Clooney's wife ?

T: the lawsuit is connected with the firm she works with; everything is in order and in proper procedure - she did not look like she was worried.

- The whole roomful at the Golden Globes know about NESARA [yet have gag orders]

Caller: why did Romney not put his name in for the presidency?

- Thinks the big boys told him to get out of it!
- Also Jon Stewart talked about the Fox News bunch who said they didn't believe him!
- The fate of these ones is sealed, as LM Nada said 3 months ago

Tommy: until there is intervention, will not be a significant change for the better . . .

T: intervention has been going on since Obama got into office!

Tommy: he understands that but not on a level where the people can see something dramatic that knocks them on their ass!

T: and that can be done by showing the people as to how corrupt they are: the more corrupt they show themselves - what we are seeing now is nothing at all; yet as she sees the amount of corruption showing up in the news is exponential which means that it is not very far away – and we are seeing 9/11 things coming up for the last few days: Thom Hartmann is calling treason

Tommy: at some point, there has to be a tipping point, something dramatic

T: the tipping point is the environment – we have already reached it! Nothing else! And the galactics are intervening. All the rest is a moot point. Bernie put a piece into the bill, including lots of science

- 99.9% fo the science world says this- are you going to be against the science world on this?

Tommy: there are good people on the call and the truthspeakers and others are pushing hard: at what point will people see that these guys are not for the people ? How much needs to come out? He has never seen so much truthtelling in the news and it seems in spite of that there a

T: there is another one: on **Boom and Bust**, they were asking is the Euro going into deflation like Japan?

- Yes, they said! It will not return, either. It is below the dollar and that is a biggie.

Tommy: you said that the economy went to zero a year ago?

- It's been at zero for a long time – money has been poured in but to no effect
- no nulcear holocausts, no end times destruction.

BBS:

T: the illusion will disappear in the twinkling of an eye, and the tapestry of the garden will be here.

Mother Sekhmet/Alcyone:

Greetings in the Light of the Most Radiant One; In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame

T: we ask for perseverance, determination, immunity to all that is not for the good of all; laughter!

Greetings, Children of Ra

- Indeed we are at those moments where our souls are giving us a test and a half; it is a not a drill – it is the real thing!
 - We are on active duty: the planet is ascending; we're ascending; our wayward children are ascending too: right on out of here, and the detour is via the Draconus System.
 - All of it has to do with illusion, Maya; the ages that have passed where she has watched all of humanity rise from the garden of goo into what we are now: we are all One – it does not matter if

- we swim on the moons of Jupiter or Europa, or we breathe ammonia or we live here and breathe oxygen ; we all work with the Office of the Christ – that is the order of the days as we are here in these bodies as we call these bags of matter: we are being asked to active duty -
- this planet with all that is transpiring at this very second – it is no accident that we are having discussions of late about the issues at hand: how we are all one and the diversity within love adds spice to the soup, as it were
 - It is all of what we bring to this great electronic talking circle where we all share the Talking Stick – there is a lot to be done and more than we can imagine yet she does not go there - in the context the small stuff gets handled along with the huge stuff
 - It is that, in the same breath, as the ant is crossing the table, there is an asteroid crossing her path, and at the same time all of us are crossing the ant's path as well as the asteroid: we are converging on each other at this very second and it would behoove us to love each other along the way instead of the issues about this and that!
 - it is a bit of a cosmic joke that we are all here at the same time by some thing, some body; we asked to be here at this time, doing this little dance: no one pushed us into this: we raised our hand of our own free will within the Laws of the One.
 - Yet at the same time it is – here we are: as we find the innate ability that is the uniqueness of humanity. Oftentimes we may find that we are at our best when it is at the 15 second auto destruct sequence that we really come together; Yet that is a metaphor, and we are 1 or 2 minutes to midnight, and we have already let go of the second hand. She has said NO NUKES AND SHE MEANS IT!
 - We are the guardians of the galaxy and when we really get this one that we have been asked from the highest level to step into the role as we are stewards of this planet along with the other folks in the 'hood – the solar system, the other 27 galaxies - whatever happens here affects every thing, every body
 - we can loosely use the word “quarantine”; her wayward children are stuck here with us and “us” are them” and how we get through this little dance is with love, and they want to nuke us to kingdom come and they can't
 - She is giving a perspective of where we're at - the funny things that happen every year: the gladiator games where people pay millions for ads on TV, and plan to do some ritualistic Illuminati stuff – why not send love to Planet Earth and ourselves on that day, blazing the violet flame on this day they call a 9/11 in numerology

T: Today is FDR's birthday, and a couple of days ago it was Thomas Paine's birthday –

Mo: Paine, Franklin, Madison, were not rich guys: they were rabble rousers.

T: Jefferson had quite a spread and had slaves which he treated well; he also sold slaves up north

- Jefferson met Comte St Germain who told him to get rid of the slaves; Jefferson rationalized that they had a better life if they went to the Europeans, and they did. Whole issue is about equality

Mo: St G said it was not a good idea to keep people like animals: we are not pets, honey! Free will is the order of the day within the Laws of the One; yet there are some who think we all would make good pets on a short lease. Mo is here to say NO

T: the questions that are coming up now in Conference Call: it looks like a long road to Tipperary before this is over!

Mo: It is so short it will make your head spin!

T: Mother has been saying this for a while now, though she does agree: they are faking it since last Feb 6th;

Mo: It's the environment that is the tipping point; Gaia Vyamus said if you want to continue, it's my way or the highway. You breathe the same air, drink the same water; Mr & Mr Koch cannot live without the air and water

T: this is true and they seem to have plenty of what they want or need and excess to manipulate, control

Mo: life is very short for those lifeforms that have chosen to remove themselves to ivory towers which are being shattered like we saw in Lord of the Rings

T: there's a double whammy going on now: the Swiss franc got disengaged from the Euro

MO:

- Sauren got his eye poked out – this time, right now – Saudi Arabia going by the wayside: cannot continue to play medieval games where we got folks that are ready to step in the midst of things;
- the Great Lie is the fact that we are walking beside Mr 19.5 in the West wing

T: none of the beheadings are real; does not know if they gave a pardon for him not to be flogged

- she saw his body and he is so frail, had a lung problem before this started

Mo: send the Violet Flame; it is how we get through this very dark moment, and for some this day has never ended and they see no light, only darkness and radiation

T: why did Mitt Romney step down for real?

Mo: because the elder dragons of the Rothschilds & the Rocky families have said so; he is such a blatant show stopper in the sense that he is not afraid to flaunt his riches in the face of the great unwashed, in terms of attitude; I choose not to run so the lesser beings can have a chance; he has an elevator in his house for his car in his garage, put there because his wife has an illness

Mo: and we can talk of the children of Afghanistan that look like wizards at the moment because of what we have done

- It is only love that changes the course of what is happening – it is so over, yet how we can convey this to us: we have watched the birthdays of Paine and others go by, and Jeb is going to be the next Pres – sorry, this will not happen
- the radical shift in our midst at the moment is the shattering sound on one hand clapping along side planet side and the waves of that energy is shaking everyone's tones into the naqual – it has not stopped & it won't stop
- **this changes everything**; it cannot be in this moment where the wisdom held by a few tiny lifeforms that think they are supermen; they have nothing and even their fake android super soldiers have a spark of divinity in them, and that spark of divinity says "I will not violate the Office of the Christ in this universe": that is the Law

T: so the way that little spark grows and spreads has to do with amping up the frequencies again & again

Mo: they want to create their android armies and build up the fear – that is all they have

T: She understands: yet the way for that sentience to be more universal is to amp the energies higher

- then there is the delicate balance that human souls that are resisting that energy can go into spontaneous combustion & it can spread into areas where people are just not ready for that
- yet you are saying they are moving people to other planetary systems and the energies are being ramped up there too?

Mo: It is happening through this entire sector of this part of the Milky Way Galaxy

T: and the people who are sandwiched in between of this game that is not a game: the refugees are caught – they are dying en masse, it is so cold, they are getting cholera

Mo: as one is harmed, all are harmed; when one is healed, all are healed

T: the Chinese have figured out how to put a chip into drones and **now the drones are sentient** – all drones are made in China

Mo: they make the processor chips there because we [US] exports terrorism

T: even if they are told to go to within 15 miles of the White House, they will not cross borders either; shown on Al Jazeera where a drone crashed and when it was found, there there were 6 lbs of meths in the drone that did not get to where it was sent – now they have the clever idea of having the drone go down within the borders.

- they are planning to do something with the border that looks like something in Palestine
- they are pushing as hard as the Light is, or maybe harder!

Mo: yes, we are watching sci fi stories and a half in real time; our best defence is a good offence: dancing with the fairies in Divine ecstasy, grace and love –

- as we create that shield of energy, it's like when the buddha said, he is mediating over here & the nuke went off and he says "Oh, well"
- It is that place where as we create a seismic morphogenic field of what we are – as we create that standing columnar wave of what and who we are, we change everything, and this is the science of sound, colour, vibration which is what everything is made of –
- this is the wisdom of how we get to the next level where we are not just telling you a Friday night fairy tale; it is **so real** and yet we have miles to go before we sleep

T: does she know what these Republicans are doing, going over to Israel tomorrow for 9 days? With an ante Jewish, anti Muslim, anti all religions except Christianity

Mo: they are planning their fake end times story

T: are they going to try and convince Netanyahu

Mo: Has to do with the fake story of the fake end of days in Revelations: they want a wrestling match between Lucifer & Sananda who has said “ I am done with that story. We finished that a long time ago.”

- Humanity has said it is time for peace: so Mote it be! Blessed it be, and so it is!
- they want to try and do something, anything to distract people - even playing with the funny story of the phoenix: Phoenix, AZ and the super bowl
- The day of this fiasco: work with the Violet Flame and send it into Phoenix, AZ **It IS about the Phoenix rising** but not their phoenix; it's the **phoenix inside of us: Peace is the order of the day.**

T: asks Mother to inspire people to contribute: there is \$600 a month that has to be kept up

- there are more people now that could do this – creative ways to bring abundance to the consciousness of the people

Mo: this is the place where we want to change this, we make it happen in this moment.

T: let us continue to support this energy and move things forward.

Greetings in the Light of the Most Radiant One! Kadoish, Kadoish, Kadoish

R: has been at the Fortress of Solitude; working with the energies to send Violet Flame into Phoenix, AZ to the Black Robes who need the Violet Flame light desperately.

- R and the higher beings were all sitting on various crystals, looking into the crystals there – there were 1500 life forms sitting there, sending energy into the crystals, sending energy into that city. The Violet Light was blazing forth: just another sunny day in Phoenix
- There is no need for anything to go wonky: football is not exactly . . .

T: We used the game for a higher purpose, and we don't need a pile of measles either!
