

## **20,000 wastepickers in Kolkata live at solid waste dumps**

Half of the world's population does not  
have clean sanitation facilities

**In developing countries, up to  
50% of fruits rot from poor logistics  
and market infrastructure**

**20-50 million tons of e-waste produced globally every  
year is dumped in developing countries**

---

# **The 2012 Muhammad Yunus Challenge: Valuing Waste**

---

**solid waste**

**bio-waste / waste-to-energy**

**e-waste**

**medical equipment waste**

**wastewater**

**improving waste pickers' well-being**
