HARD NEWS

T: begins with thanks to Cheryl for remembering that we are infinitely abundant beings!!!

- Everyone wants to know where are our galactic brothers and sisters: **we are the ground crew** - and people would like more stories about galactic experiences!
- Asking people to call up and share!
- lots of crystal children on the call: people who are 20 years old were born in 1996; what kind of history is not part of that matrix, that DNA – before they came in, they took a look at the situation and said they would come in to be part of the solution: they are the Heroes.
- Those who comes in before are the Prophets – they set up the situation so the Heroes could come in and be the heros
 - someone who came in as one in the Prophets category got active & lots of us got purged in the process; it's gotten to the point that victories – by the time 1965 came along . . . even at 18, as she looks back and where the world view was in that part of the Prophets generation, it certainly was not at “Where's my Ascension?”, “ I want my shuttle craft” and “I'm ready; why aren't you?”

R: In 1965, he was at the Monterey Pop Festival: the particles of All That Is were part of the energy coming in at the time; Donovan was singing about Atlantis: Mellow Yellow, Bananas; Joan Baez, Peter, Paul and Mary talking about what Dr King brought back forth with the Civil Rights Movement.

- this has been an intense day for Rama, and it will be only more intense
 - the youth are not wanting to listen to the history as it is not part of who they are and, in a sense, it has been the heaviest history in the world!

R: he has come from the realm of seeing all kinds of things – a blessing and also a challenging time to be able to integrate what we can accomplish; we are being asked to be gods and goddesses of the Most High which is not easy.

- it is not about spinning the crystals and going up! It has taken Rama years and years to develop abilities: it requires meditation and other work – and since we've passed Dec 21 and are in the Sat Yuga, things have changed radically.
- Things were better in 1965 / 1967 than now - we have wanted to go forward and the reptilian warlords said they'd cut us off at every turn – and they did and still are.

R: there was a naiveté to the Flower Children until W.E.B. Debois, Martin Luther King, the Kennedy Bros were killed: since 2012 the frequencies have changed radically and he is being told to his face by the galactics that miracles & magic are the order of the day, and it is not out of the question that things happen instantaneously

- He can witness this: on Thursday, he saw crystalline beings who work with the giant snowflakes, 20 – 55' tall! He saw them in the ski valley where he had gone so he could connect with Father Sky and Mother Earth; they talked to him in the Solfeggio tones from 528 htz and up
 - Heard on BBC news: cats, in particular, work with Solfeggio tones from 528 and upwards; as you play it for your cats & other animals, it helps them and their human keepers.
- They told him that we are embodying Dr Emoto's message of peace and love
- He was 8,000 ' up, snow coming down; it was a whiteout – had to be careful!
- The crystalline snowflake beings said they work with the energies of Dr Emoto's water crystals of peace and love; they are water and are directly related to crystals which are years of frozen water: they are 6 sided beings like the hexagrams. This is part of the system of how we work with our merkaba beings and are able to go up on the ships
 - It does not happen so instantaneously that we can go up the mountain, spin crystals and meet Ashtar; Yet, miracles are afoot of the most abundant kind.
 - Rama was in a low place when he went up there & talked to the beings: they said “Reflect and work with the energies of Dr Emoto's water symbols; that will shift your consciousness.”
- They also said that thoughts are physical manifestations of the vacuum out there: as

we keep our thoughts and our words pure, we keep out of those low places – IT'S A REAL CHALLENGE! It's not easy at all!

T: Thom Hartmann had a caller who asked about wealthy families who grew up here:

- Thom made it clear: they have no emotions regarding poor people; consider them a drag; have negative attitudes about poor people so they live in gated communities and make the city unliveable for poor people.
- They have a lack of emotion regarding classes – Kissinger called people “useless eaters” – there is no plan inside that attitude that includes us: their intention is to cause our death in ways so it does not appear to be their fault.

R: Will use frequencies & all kinds of ulterior motives like the man who lost \$200,000 and hung himself because he could not live with being destitute: the bank took all his money

- this was a story from Ellen Brown on last night's call. This is the place where we lift each other up so we can get to the level of getting on the ships and working with that energy

T: this starts before birth: we all consult with the galactic family from the etheric; as we expand our consciousness, [we learn that] there have been trillions upon trillions of lifetimes and there are some souls who have not come to earth very much: they are called Holy Innocents in the biblical text – haven't been much in this dimension though in other star systems and universes – no karma from this dimension

- This is the only planet for this particular experiment [of polarity] & having a veil - a unique experience in the entire Mazaroth: it is a huge, huge, huge gift to be in this body on this planet at this time!!!

• Each ensoulment is a new experience, no matter how many lifetimes we have had as we have chosen the experiences to continue the learning from the last lifetime. There is a whole existence of 475 billion years that has already happened in the future, given the time line we are in now!

- We are already in the process of knowing that there are all kinds of beings who have been born with all kinds of experiences: talks of kids being born with AIDS and they were tested several times and after 5 or 6 years, tested again; the discovery was that the AIDS was gone and, not only that, they got no other diseases either – they are already in a quantum field of love, never swerving or being in a field of illusion . . .
- Talks about those who are the “holy innocents”: they have not had the karmic experience of war and peace, of judging self, as we've had – the experiences of lifetimes of so many things without judging ourselves: sometimes we bit off more we could chew in a life time and just because it looks like everybody has to die **does not mean WE have to!!**
- there are children in various stages of awareness who don't get sick! And they don't allow negativity to enter – they don't have the karmic experience of war and peace for example
 - T saw a child starving to death, yet the look on the face was of total god presence in spite of being in an emaciated body! The altered state of Oneness.
 - another family: the father was Kurdish; had a tiny child of 19 mos who died of starvation in their arms: there are 400,000 people like that in Syria: no money, no food, they are under seige whether it's in the Kurdish area or by the Syrian army on other parts of Syria – the people have no value to those who are responsible.
 - Yesterday on DW News, the report was of UN people allowed in to assess the situation; they are heroes as there is no guarantee they won't be killed, same as the journalists getting killed in numbers not being reported: yet the souls made this agreement to do this work prior to coming in
- **the ones born after 1996 to now** represent a group awareness that together, as fellow travellers in the ground crew, they have a mission together and this forum here is . . .

- R:** remembers the time when he and Ashtar asked for earth to have another chance, and Rama was not even in the body yet. He said he would stay here until heaven merged on earth and the people actually wanted it.
- In 1933, he went with Ashtar before the Solar Tribunal; the plan was for Lord Kryon of Magnetic Service to come in and do a hyper dimensional by-pass and delete the earth experiment
 - Ashtar and Rama asked for Earth and its people to have another chance, as they know they can make it! And the Solar Tribunal agreed to give earth a chance!
 - The thing that changed the course of the story was the decrees put together by Mommy and Daddy Ballard with St Germain: **the decrees changed space/time** – all of what has happened has allowed that frequency to shift the consciousness and we **made a difference by using the decrees and calling in the Violet Flame.**
- T:** Brings up Aesop and his fables: **no act of kindness, no matter how small, is ever wasted!**
- This is a big deal! It is a very enormous giving thing to that has been spread across the entire 7 super universes: it adds to the pool of love and grows, and can be something that changes the whole world
 - Yes, you can go and find these things and listen to them by yourself; yet they play these things with consciousness -together - so the creativity of the group energy does things we cannot do alone.

R: As we come together in the unified field of energy, it shifts space /time so miracles can be created. It is about doing the due diligence and the discipline of doing things together in group consciousness: he names many who were involved in the I AM teachings – he never experienced any of the illuminati, the darkness etc with Bob Hope who respected the energy that was there and was of utmost impeccability – even though he was one of the dirtiest ones at the same time!

- They worked with the Violet Flame and worked with all the Ascended Masters and all the highest frequencies at the time; R was working with the energies of the mighty I AM presence;

T: yes, he got to work with Hollywood folks and politicians, and he wrote into his mission before he came in that he would be a major global communicator

- Caller:** to pick up the idea of the Violet Flame: brings up book written by Patricia Diane Cota-Robles – ***The Violet Flame: God's Gift to Humanity.***
- It's full of explanations and invocations and explanations (1) the invocations come from St Germain and the Company of Heaven and (2) using the same wording time and time again helps spread the energy across the universe and sharing with others
 - Have been using it since Len's passing: the more she uses it, the more powerful it becomes. It's a tool they can use if they don't know about it:
- R:** uses "I am the Sacred Violet Fire; I am the purity God desires" whenever he is in a low state.
- Just repeat and work with the energy, and you literally become the Violet Flame like the energy of Sol, the sun – plasma energy!

Caller: "I am the Joy of Forgiveness" and repeat that – helps a lot too

- Just to tell folks: we have this book, even if we don't have access to the I AM teachings. It's really helpful and to be recommended.

- T:** helps a lot to see that galactic beings: another piece – Ashtar came through when they met:
- D'Yanna, Rama and Ashtar's galactic sister came through, and she brought Ashtar through.
 - Ashtar said "Hats off to the ones on earth: you are equal to us: no such things as them being higher than us, or being separate: we honour you guys because you took on the

most challenging role: to incarnate and to change it from the ground.”

- This is a hard piece to comprehend when you are 18 or 20 or 30 – or 80 or 200 - to understand and accept no matter what your age! Sherula is 220 years old!

T: brings up the question of sugar and meat which many people have issues with

- sugar is extremely yin, meat is extremely yang – no balance in either – which is why the green spectrum of the vegetable kingdom is the balance
- L M Ma'at who is Mother's future self is on that emerald green, the 4th ray which has 2 rays: the white ray of the White Fire Core of Being, and it is also on the 5th
- Serapis Bey guards the White Fire Core of Being which has been burning forever, in one of the paws of the sphinx: the emerald green ray
- Reading about the gunas and learn about spiritual light being able to flood the cells: eating a fresh, raw green diet is the ideal place for ascension and to ascend without the body dying is on the emerald green ray of balance and healing which is peace and HOPE: the true concept of HOPE is to live [**H** healing **O** of **P** planet **E**arth] in the eternal balance of the emerald green ray
- There are so many vegans on the planet: it's a quantum leap – reference to the panel called **Sister Giant** which included discussion of the documentary, “The Cow Conspiracy”
 - Marianne Williamson, Elizabeth Kuchinich who said as we stop the extreme things we are doing on the planet - poisoning everything to create more “food” which is full of chemicals and destroying trees in order to grow more animals and making an overpopulation of the animals so you can kill them and eat them - when they don't really apply to what we really need to eat.
 - the cows do not want to be here any more and be eaten, nor are they being fed properly - T learned this back in the 60s
 - the land is being starved, destroyed by the perpetual cycle of doing things that take the human race and its genetic coding into a downward cycle and they know it: reasons are clear: the elite want to reduce the human population to under 2%

R: at the same time, the galactics are here to bring the spiral up; even though we are the galactics here, there are other beings present in the physical realm who are here transmuting and transfiguring what she just said

T: the change we can believe in is that we, as ground crew galactics, need to apply the knowledge, not just know the galactics are here and will “save us” as they will not – that would be intervention, against Prime Directive. It's not for us to sit on our laurels and wait

- They've had no food for 3 days, yet have been using powdered greens that make a green drink which keeps them going; says on the container that one can live on it with no other food.
 - An accumulation, over time, when the things we have been eating plus the emotions and the refusal to change: - refers to studies which show **eating meat – all flesh food - is carcinogenic**: in Jan / Feb 2008 – Amy Goodman's show Democracy Now had on the results of a 19 year study that **all** meat / flesh food including eggs, dairy, all milk, cheese IS CARCINOGENIC. It is NOT HUMAN FOOD.
 - THE HUMAN BEING IS DEFINED AS AN HERBIVORE AND THE kind of protein that is the highest form of their function is GREEN PROTEIN.

R: Vulcan is a planet in our solar system and the story of Spock and the people there is true: they do not eat meat; they are vegan.

- have taken the philosophies to the highest levels; have learned how to evolve their emotions into pure logic, the understanding of coming from a place of higher wisdom like Nassim talks about of Universal principles where one does not get caught in emotions

Caller: asking about once seeing Spock with a tear in his eye: seems that the logic sounds so cut and dried and so far away for us humans – what is that about?

R: Yes, it did happen: his mother was human, his father Vulcan; in later stories, his father goes through a healing and transformation with Captain Picard and transmutes his emotions.

T: remembers her brother from London asking about getting protein – can't get it out of greens!

- What E Kuchinich was teaching: if we turned all of the land into green ground cover, the green plants will attract the carbon dioxide into their roots and the roots will transform the CO₂ into the soil and take it out of the air, thus cleaning the air for us to breathe
- If we did that, the corporations would not be making any money

R: oil is down - \$30 a barrel, gas is down to \$1.79 and the man at the gas station it could go down to \$1.29

T: As Mother says, humans are at their best when they are at their worst! We were given the human experiment to steward the planet and instead we plundered it

- The life style in the West is so out of balance: how come the people in the US - which are only 5% of the population - use 40% of the resources; to keep that up, they kill people & feed themselves steak which is will ultimately kill them, and not feed the others properly.

Caller: about trying to get population reduced: the Cosmic law applies to the dark ones as well as us, right? As we are all One and destroy others, we destroy ourselves, right? If these ones are so smart, how come they don't get it?

T: they don't want to! First of all, they are not human

Caller: But doesn't that rule apply to all?

- They only want us as servants and to be lemmings

Caller: Yes, get that: they can get away with doing it as they are not bound by the Law of One

T: Not only are they not human; also by the time they are 4, they are devoid of feeling

- If they are not cooperative, they are killed and used in human sacrifice: the others have to watch -
- we do not have to take this: we can comprehend it – what happened here with Donald Trump

- it's about mind control: he does have 20 – 30,000 people following him on Twitter
 - there are lightworkers who are 60 and over, who don't get they were mind controlled in their education
 - when we were flower children, we had some freedoms, and LBJ signed the Civil Rights Act
 - yet LBJ was part of killing a clone of JFK Sr so he could be president [and Jack will be back! The real one is alive and in a witness protection program]
 - a 20 year old will be scratching his head at this: the Civil Rights Act really never stuck; and he knew it: they were amping up Viet Nam and MLK Jr was killed because he was talking against the Viet Nam War – he said that the US was the worst purveyor of violence on the planet!
 - And yes, that has not changed! All of T's school mates were killed in Viet Nam – only 5 or 6 left; those who did not want to go to Viet Nam left the country, including Rama
 - Important that we have these kinds of conversations

Caller: The reptilians: the Law of One either does not apply to them because they are not human or it does apply to them and they don't get it – which of these 2 is it, or something up the middle?

T: Up the middle: there is Bill Clinton who is half and half; when he was tested, he had the highest IQ on the planet – over 200.

- they are extremely intelligent, yet Bill has human feelings.
- He and Hillary did not fall in love and marry: they did not have a child either: Chelsea is the child of Webb Hubble. Hillary says if you don't do this, I will kill you.

- Bernie Sanders is a Venusian, a master in a body; for him to walk through Congress, the Senate, and at the age of 13 – 14 march for civil rights; go to jail at the age of 16; white, jewish not practicing; an amazing being
 - She brings up the meeting between Sanders and Killer Mike in Killer Mike's barbershop - totally amazing!

Caller: Yet it's perfectly normal in some ways - the way it ought to be!

T: when she was in that age group, she did some outrageous things;

- Rama at 18 was in India and was in some kind of group: there was an evolving consciousness as they learned how to gain the wisdom of the universe: some of the techniques got you to the place where you had to deal with your raw emotions – chaotic meditations. The leader made them do it for an hour
 - Now there are chi machines that get you to the same place in about 10 minutes.
- We need to have these kinds of conversations: the young people need to speak up too – it helps to be born with no garbage and not to have been exposed to it after birth. To this day, we, the older generation, are getting killed if we don't cooperate
 - Brings up a story from last night: the police broke into a house – mother was at work, she and her daughter lived with mother's sister and her daughter: the police took the daughter with them, went to the work site, got the mother and deported them both back to El Salvador in handcuffs, with no belongings of any sort! Yet the mother had papers that showed what had gone on in El Salvador and why she left and came to the US for a chance at a life – now she is being deported with no chance to speak
 - this is the same problem: Hillary and her overlords – IT IS NOT BARACK OBAMA which is why he was weeping!
 - The media is cutting off the rest of his sentence: this goes on all the time in Chicago – none of them left and yes, they went to Viet Nam, but there are other stories: T watched her friends be killed in front of her, friends who were black and she was left alone.

T: brings up that BBS is the best radio station going – the archives are there forever & it keeps us in touch with so many people, and ideas

- And Skype is free across the whole planet; Commander Randy is in Thailand and others from there are listening; we have people in Mexico, Brazil, Chile, South Africa, Canada, all over the EU, Bali, Egypt, Hawaii
- Kaypacha wrote into his script that he would be a teacher and travel all over the world non-stop – teaching astrology
- Thom Hartmann also does what he loves, so the work is not work! Thom talks about a certain kind of milk gathered in the night milking: it provides more nutrients than milk gathered at other times of the day. He is a total vegan – does not even eat fish or sea food – gets us back to the green stuff. He has celiacs therefore NO GRAINS.
- Really a time for change. Thinks the younger generation would have a better time . . . a friend from Toronto – she grew up in a hygenist family where 4 generations had never touched flesh food, dairy of any kind! Her lunch break is celery and a carrot. Her tissues, skin are tight – no flab, no missing teeth; knew the combinations of raw foods to eat – Tara tried eating like her and felt much better
 - Living in LA was like being hit with bricks!
- A balancing act we have to do: our DNA is mutating in a good way and we are getting out siddas back -talks about doing the sunrise meditation & the guy who sticks his butt up in the air and forms a perfect triangle with the earth!
 - We are in the very, very, very end times – and we have to get this at a core level.
 - Mother has said there will be mass exodus because people will not want to change.
- No need to cure cancer by putting pharmaceuticals in your body, either – Thom Hartmann's wife had breast cancer and had some drugs covered by their insurance program: she got 3

weeks warning that the ceiling for drugs was coming – in that 3 weeks, Obama care came into being and that ceiling was lifted.

- Took all of us to make Obamacare happen; now PBS has programs about being vegan
- Heard a doctor from Lichtenstein – she and Rama went to the presentation to take notes for a radio program; his first point was that people cannot just put things in your mouth and not expect your body to be affected: showed all the meridians connected to the teeth – his name is Dr Row but she does not know how to spell his name – does not know if he has time to come on a radio show – he only talks to doctors – Rama to find out if he has TED talks, for example
 - People who are terminal with epilepsy or anything – the first thing he did was look in the people's mouth and took out any implants and root canals because that contributes to your death
- Tells of a dentist who gave his nephew or son a root canal and a few days later, he died of renal failure.

Caller: does that mean dentists know and still continue to do them?

T: They definitely know now; in western medicine, the connection between meridians and teeth was unknown 40-50 years ago, but it has been known in the chinese and aruyvedic medicines; this is the western oligarchs way of reducing the human population and keeping people dumb / programmed about it – thanks to the internet, people now know about it.

- The internet helped with the Arab Spring – and there was someone who had 800 people executed.

T: wanting to be connected to the galactics – there is no one who is not a galactic we are all galactics as no one came from here originally – which is a BIG story

- Someone on the Thursday show last week said he did not believe that Magdalene was a prostitute – she was a Dakini, but not a prostitute.
 - We learned a lot from Ahalya & also Carlton who asked the original question
- Robert Redford is a White Knight, gag orders up to his 3rd eye – knows whats going on! He's been researching and going all over the world – people are getting together and learning what laws are in place and stopping things from happening

R: we're being given an immense opportunity at this time – like never before!
Let's light up the world: HOPE: healing of planet earth

Audio: Roy Scranton: Learning to Die in the Anthropocene- Reflections on the End of Civilization

<https://www.youtube.com/watch?v=N0yUX12ZoTA>

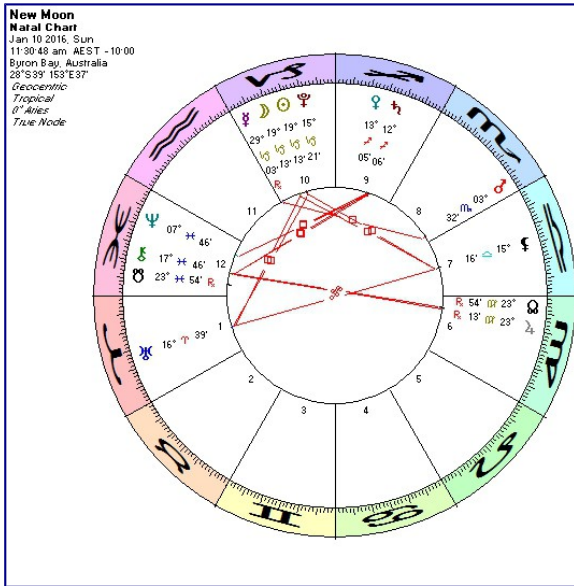

2015-11-24 War veteran, journalist, author and Princeton Ph.D. candidate Roy Scranton writes of the dangers of climate change and of a warmer, wetter and more chaotic world which demands a radical new vision of human life. His book, **Learning to Die in the Anthropocene: Reflections on the End of Civilization** (City Lights) expands upon a New York Times essay in which he argues that in order to survive, we must come to terms with our own mortality. "In Learning to Die in the Anthropocene, Roy Scranton draws on his experiences in Iraq to confront the grim realities of climate change. The result is a fierce and provocative book."-Elizabeth Kolbert. "Roy Scranton lucidly articulates the depth of the climate crisis with an honesty that is all too rare, then calls for a

reimagined humanism that will help us meet our stormy future with as much decency as we can muster."- Naomi Klein.

**To break the cycle of endless dependence,
I must heal the shadow,
Through full self acceptance.**

Happy New Year! With the New Moon this weekend in Capricorn (on Pluto), and Venus on top of Saturn, this is definitely a time for plans, resolutions, and reflections. So yeah, the upside is planetary support for deeply dissecting your life, analyzing your deepest inner world, and intensely addressing your relationship needs and issues.

The downside is that it can seem a little heavy, sober, and depressing when you might like to just lighten up and party! Thank goodness for Venus coming into trine Uranus at the end of the weekend to break up the perhaps bleakness of the days. Wishing you luck on your healing journey and hoping you remember that what goes down must come up, most often rejuvenated, reinvigorated, and more enlightened!

T: comments on Rama's galactic stories at the beginning of the call; he'll be doing more of them.

- The Atlantians lived without dying for 10,000 years and then they renewed their contracts
- Venus ascended before us and is our sister planet; Bernie Sanders is a Venusian and knows it.
 - Hillary is a dragon and needs love: these ones are being left to Mother. It is necessary for us to love all with higher vibrations of love: as we do this together, it happens
- Very Important: **how come Ashtar, Faction 3 won't help T & R?** Because it is intervention!

- They are supporting us [in ways] which are non-intervention, and [the tricky bit is] with money: if money were transferred from Faction 3 to people not on their payroll, then they get killed too! And Ashtar says as we volunteered to do this, we are responsible; they are mitigating much for us and if they hadn't, the planet would already be gone super-nova!
 - This goes back to the 5,000 year war; the 2 moons we had are hanging out on Ganymede, one of the moons of Jupiter, until things are restored and the original moons can be returned to their original location.
 - the new earth is being held in a sling – like the stork with a baby inside a blanket! It's a metaphor: the old earth is in a sling until the new earth can be birthed completely. The Vibrations that are old need to be peeled away like an orange
- Talking about having a pure vegan diet: have to begin with a cleanse: of thoughts, emotions, body, etc – there is not a soul on this planet who is not full of radiation; we are losing millions of gallons of water for just one fracking site; this has been done to the tune of 1000s of wells. So many things the earth can fix herself . . . [not completed]
- KOS:** Told Rama that all the ones who took over the bird sanctuary in Harney County; the sheriff of the county had a townhall meeting of 500 people. Said the people had voted: happy to be awakened to their point
- Harney County is bigger than the state of Maryland, and there are 8 other counties that are smaller. Inside Harney County, the feds own 73% of the property. East of the Mississippi, the Federal Land Bureau owns less than 4%. West of the Mississippi, the FLB owns much of that land mass. There is corruption at both the fed and the state level as they are not aware that you can't do open pit mining. The land is taken by eminent domain and this puts people into poverty and debt – the Land M B and the EPA . . . [not completed] and the Animus River is polluted
 - The galactics are helping us yet we have to take the lead. One of the ranchers who owns 1,000 acres of land raising cattle said you need to have 30 acres to feed a cow so people can have a steak on the table. And the cows do not want to do this anymore; on average, cows are dying between 4 and 6 years, yet they can live for 40 years. Lions can roam over 500 miles. The Mastadons were 10 times bigger than today's elephants: sometimes they'd stampede and people had to wait for 3 weeks before the stampede was over or get trampled – and that, too, is an imbalance – there has been an imbalance since a past nuclear holocaust – so in this lifetime we are working on this imbalance.
 - The Archangels are androgynous; the feminine coming in is attempting to bring a balance - those who created the corporatocracy get an A+ for creating the imbalance we are looking to rebalance.
 - This is a special time as we are in new times: take the idea of over a million people moving from one country to another – refugees.

CONFERENCE CALL

KOS: THE guys in Oregon will be going to jail for 5 full years.

- Double standard going on in US

C2: It IS a gift to be on the planet at this time; just beginning to really dawn on her!

- Happy to be in the SW: guides knew what they were doing when they sent her west!
- Asking after their health.

T: tells about the tires and that they still need the \$1377 to do the rest of the work or the tires will be completely ruined! They need to remain connected to those like KOS, and the younger generations are learning that patience is a virtue:

C2: hopes that people will send \$8 - \$10; all hands on deck would see it all through!

T: it's a lesson for all of us; Rama has to re-learn how to do things too – dropped from 98 to 94 lbs. We all have the reptilian brain stem so some of us expected that it would go on forever that they would be in charge and [that there would be] others not wanting that.

• Brings up the speaker at the Pirate TV program: people living on land that does not produce food are moving to cities and thus are moving the problem. We volunteered to incarnate and take on more than just our own personal karma! We also took on planetary karma to transmute it – and there have never been so many galactics on earth as now.

C2: some are here to transmute the karma of particular groups: like some religious groups who may carry something like anger or guilt

T: could be black in one lifetime and living in Africa, then white and living in the north!

- Trevor Noah said we'd never find a black man living in Oregon: have you seen the weather there? He is challenging so many things with his presence: he is 6'4" like Obama, and T thinks he's great! He's pushing buttons which is also great!
- Colbert addresses another audience: has no trouble dealing – he grew up in S Carolina, lily white and Catholic – does what he can! On his old show, he revealed things like a hard liner Republican which was his persona.
- Had on an actress who played in MacBeth – very good. Finding so many good things, she can't fit them all in! Have many amazing lightworkers in front of us now – Lord of the Rings actors, staff all moved in together in New Zealand for 6 years to make the films.

C2: asks about who she was: T was Arthur, R was Merlin! Lancelot was overlit by AA Michael

C2: Are the myths of Avalon true? **T:** there have been a number of renditions of that time: there were many things that manifested at the time: Mordred was really the first dark knight usurping the power; and the Stone of Scone is not the real Stone: QE 2 did not sit on the Stone so this has been a fake queen. **C2:** said that QE II was not human. **T:** She's a 25' tall dragon with gold & emerald green scales on her skin:striking! C2 asks if they have seen her!

Raylene: that Yahweh is an alien [reference to the guest on the Thursday call] – thought he meant Jehovah – mixed her up a bit. **T:** didn't press him on that one. In the **Keys of Enoch** [Yahweh is pronounced Ya - vaj] and Jehovah is not who they think he is – when we were together with Mother and Alcyone and in the unified field of love and asked to do the experiment in duality, Alcyone said he would cast a shadow of himself and call it Jehovah – and Rama challenged him – which meant he challenged his own grandpa!

- When we think that Jehovah was a deliberate shadow

Raylene: realized the people would wake up more **T:** lots of lessons in Sedona!

Raylene: it does change one at a lot of levels **T:** Raylene moved from NY and Carolyn from Pennsylvania – a great shift for both of them. Sedona is not like Philly! Or NYC

T: 2 dark places: Boynton Canyon where they eat kids every day. Light workers go there and use the other vortexes well – he [Rev John Polk] said he could not advocate violence, as it only creates more violence.

Reading: 2016-01-06 [White Privilege and the Myth of the West~ An Oregonian's Take on The Oregon Militia](#) **[SEE BELOW]**

- The idea of supporting them [T & R] on a physical and emotional level seems to be difficult to grasp – we [who are listening] need to support the work which we undertook together.

C2: is it that KOS wanted them to not have the galactics help them with their own resources?

T: yes - absolutely; he told them to keep themselves out of the system! They were once sent to see a certain lady and when she pulled out her I-pad, there was KOS sitting on her screen!

R: as Rev John Polk said, there are so many ET beings here on the planet – and they are walking the West Wing with the Commander to get this work done. St Germain set this up with the Founding Fathers: they sat down with the early Indian nations and people like John Smith and put together what exists now. The Republican candidates are skewing the story – has to do with the Republican party representing the nazi fascist state like Mussolini, not the republic

T: terrifying that someone can get up and say we'll build a wall and make America great again: [which means] white. And what Trevor Noah said when the president of the US wept over 6 year olds and he took on Fox News for saying what they did!

R: and the republicans made jokes about Obama crying over the children: they are cowards as they come from a place of fear because Mother is here. They know who she is, and we need to be compassionate and send them love as they thought it would be easier to not feel

R: the 11th strand of DNA is emotion, the 12th is Divine Love – we are fortunate to be able to bring this Divine Love to the world so we and others can go to the next level.

Samana: have they looked at the new Nesara document she sent them – can't put it up until T & R have seen it. And Penny has also done one – need to put them together.

Antony Loewenstein and M. Jacqui Alexander: Disaster Capitalism and Spiritual Feminism

Six years ago this month, Haiti was hit by a devastating earthquake. Billions of dollars in aid were pledged but little made it to the people in need. Why did that happen? Today on The Laura Flanders Show, Antony Loewenstein talks about Disaster Capitalism and the great Caribbean feminist Jacqui Alexander gives us a rare interview. All that and a few words from Laura on laissez faire capitalism - that isn't.

Social solidarity smashed by mysterious forces in debt laden Greece, a medical clinic targeted in Afghanistan. Could all of this reflect the chaos and cruelty off which disaster capitalists get rich?

Our next guest lays out that argument pretty clearly in a searing new, globally reported book. He is Antony Loewenstein, an independent journalist and author. His latest book **Disaster Capitalism: Making A Killing Out Of Catastrophe** is just out from Verso Books. Antony, welcome to the program.

Antony Loewenstein: Thanks for having me.

Laura Flanders: Your book draws a lot and you acknowledge it on Naomi Klein's work-

Antony Loewenstein: It does.

Yin Yang - Symbol

[space.com](#)

We begin the New Year with -- what else? -- change!

After the Christmas Day Cancer Full Moon highlighted Uranus going direct, the planet of change, awakening and originality activated outer changes that we're still processing. Perhaps you had an argument with a friend or family member? Or experienced a surprise that threw you for a loop? Did it leave you with hurt, confused or fearful feelings? Or did you have a sudden realization? What changed?

Perhaps it needed to. We all have unconscious behavior patterns and expectations that unhappily

pop up during the holidays, so for Uranus to turn direct on a Christmas Cancer Full Moon is indeed magical and intense. We were given cosmic help to change something if we had the courage to face our feelings. Cancer symbolizes our unconscious feelings, our emotional body. Most of us have emotional behavior patterns left over from past experiences in this life and in others.

For me, it centered around expectations about family (Cancer Full Moon) and when those expectations weren't met, my feelings were hurt. Then I had a dream that it was really my 'father' who was getting hurt by it. My inner father had those expectations, but they were no longer applicable to my own family situation. I had to learn that lesson and let go of the pain and embrace the love that was there all along.

Instead of celebrating the joy of the return of the Light, our holiday expectations can make us miserable instead of enjoying the company of loved ones, or stressed instead of experiencing a sense of joy and gratitude for another year of life. If we've learned the lessons of those energy patterns, we can release the structures that shape the patterns and leave the past behind. Why engage in old fears and resentments, hurts and disgruntlement when the lightning force of Uranus can wipe the slate clean? We all received a Christmas gift--a grace to be used.

It's time to create a new life, a new world!

So begin with yourself. See your life through the lens of compassion and nurture your new Self with the heart of a Mother. The Divine Mother will nurture this new life and light if we ask it of her. It's true that it takes a village to raise a child, but first it takes a Mother to love it and bond it to the Earth. This is how we begin to create a new life shaped by our real beliefs. We love it so much that we give it our energy to grow.

And the Change Continues with the New Year

These first few days of January are full of changing energies, like currents during tidal changes. On January 1st, Mercury entered Aquarius as it slows down to turn retrograde on January 5th until January 25th. Mercury turns retrograde at the very beginning of Aquarius, opening the Mind's doors of perception to a new paradigm of life, then going back into Capricorn to re-examine and re-think, re-imagine and re-store what is important for making our purpose and our society vital and creative, fair and healthy. Retrograde Mercury is alchemical--it wants to transmute the old into the new. In Capricorn, the energy urges us to aspire to the mountaintops! Just think of the movie *The Sound of Music* with the Mother Superior singing, *Climb every mountain. Ford*

every stream. Follow every rainbow, til you find your dream. That's what Capricorn's goat does as it climbs into the mountains of either worldly ambition or spiritual aspirations.

The Sabian symbol for today's Mercury retrograde at 2* Aquarius is: *An unexpected thunderstorm.* This symbol tells us to expect the unexpected! Yes, a thunderstorm brings rain and refreshment, but it can also cause havoc in the desert with flash floods. In cases like this, we have to develop inner security so we're always ready to meet whatever life bring our way.

On January 3rd, Mars moved out of peaceful, airy Libra and into the deep, dark emotional waters of Scorpio for the next 8 weeks as it slows down to turn retrograde in early Sagittarius on April 17th. Mars in Scorpio turns inward and grapples with old emotional structures that no longer serve us. Whatever we didn't resolve during Saturn's transit through Scorpio is likely to surface now. If we've released our old patterns, perhaps Mars can help us build new, healthier patterns of intimacy, giving us the courage to open ourselves to others and the world. Can we let in the new?

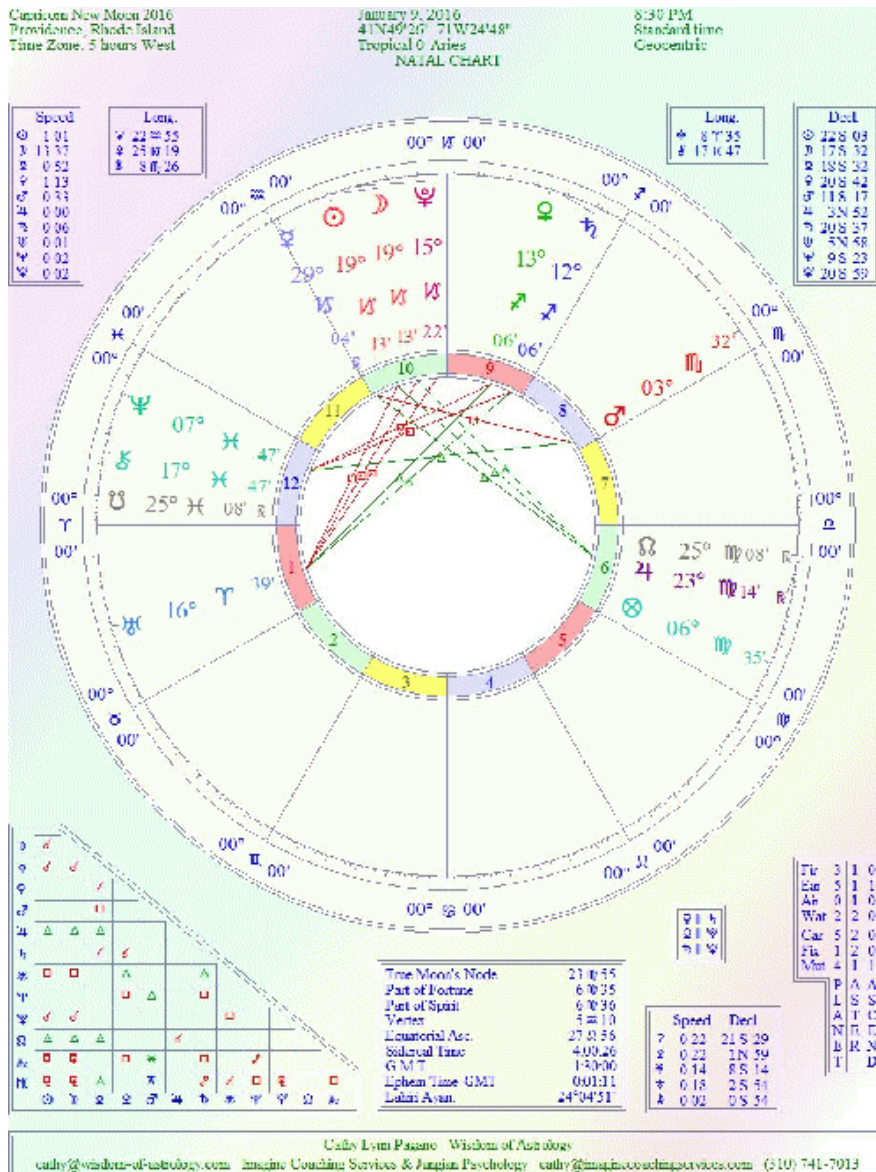

On January 7th, Jupiter in Virgo turns retrograde until May 9th powerfully aligning with the Virgo North Node, our collective focus. When Jupiter's expansive vision turns within, we get the opportunity to rewire our inner energy structures, fine-tuning our body, soul and spirit connections and our skills. The Sabian symbol for the North Node and Jupiter's retrograde at 24* Virgo is: *Mary and her little lamb.* Jupiter calls on us to remember our innocence, our simplicity and our humility as we prepare ourselves to achieve great things in the coming year.

Venus becomes part of the ongoing Saturn in Sagittarius square to Neptune in Pisces on January 5th as it squares Neptune and on January 8th as it joins Saturn, the ruler of Capricorn, in Sagittarius. Whenever a transiting planet connects to these ongoing aspects, it brings up issues related to it to test us. Venus brings the heart into this challenging square between the planet of concrete 'reality' and the planet of the 'unseen realities'. Saturn holds our boundaries, making us individuals, while Neptune does away with boundaries, showing us *our* interconnection with all of life. How do we hold this 'tension of opposites', this paradox? By saying it can be 'this and that' rather than 'this or that'. Life is a paradox, a puzzle that we can solve by being grounded yet open.

Venus conjuncts Saturn on Friday January 8th at 11:11pm pacific time/8:11pm eastern time. The Sabian symbol for their joining at 12* Sagittarius is: *A flag turns into an eagle; the eagle into a chanticleer saluting the dawn.* A flag is an abstract symbol of a nation--perhaps in this case the U.S., which is believed to be the seat of the new age arising out of the breakdown of corporate patriarchy. Then this 'sign' turns into a living being. The eagle symbolizes spiritual will and consciousness; it gives us the ability to fly high, living out our highest ideals and visions. As this spiritual vision arises, it transforms into a clarion call for a New Dawn. A new Day is being born within each of us. Wake up and participate in it.

It is the heart that connects us to what we love, and it can help us connect different realities. This is the time to invoke the quantum field--walk into the realm of possibilities and set the intention for manifestation. It's about our beliefs and our heart. Feel what it is you want to create this year, both for yourself and the world, and use Saturn's concrete energy to 'make it so!' (Thank you Captain Jean-Luc Picard!)

Capricorn New Moon 2016

Capricorn New Moon 2016
 (image by [Cathy Pagano](#)) DMCA

In preparation for this first New Moon of 2016, the Capricorn Sun and Moon re-activate the powerful energies of the Pluto/Uranus square that occurred 7 times between 2012 and 2015. While this square is separating now, its' energy is still active for the next few years. (If you remember, it was in the years after the Pluto/Uranus conjunctions of 1965-1966 that real changes occurred.) Issues of Freedom vs. Power will be back on view--where do we give away our power and loose our freedoms and where do we need to step into our freedom and channel our power?

Whenever another planet transits the degrees of these ongoing outer-planet aspects, it raises those issues again, just to see if we're paying attention. It provides a mirror to see how we're balancing the energies--if we take one side, you can be sure we'll project the other side onto

someone else. It takes humility to accept that we might be part of the problem facing us, even when we're doing our work. Especially if we're doing our work! We cannot grow unless we meet the obstacles in our path and find solutions to them that spring from compassion and wisdom.

The Sun conjuncts Pluto in Capricorn on the evening of January 5th and squares Uranus in Aries on the morning of January 7th, and will still be within orb at the New Moon on January 9th, when the Moon connects to both planets as it cycles to meet up with the Sun for the New Moon. Any planets you might have in the mid-degrees of the cardinal signs will be impacted by this New Moon. So plant your New Moon seed and water it with love, faith and imagination.

Capricorn is the sign of our dharma--behaviors that are considered to be in accord with the order that makes life and universe possible and includes duties, rights, laws, conduct, virtues and "right way of living". In Buddhism *dharma* means "cosmic law and order." This is Capricorn's aspiration--to climb the mountain of life to achieve our spiritual purpose. While Sagittarius symbolizes those cosmic laws (and happily, Capricorn's ruler, Saturn, is now in Sagittarius) Capricorn is the arena where we bring those laws to fruition. As we can see and no longer ignore, our governing structures (another Capricorn function) are no longer aligned with cosmic law. We have fallen out of balance. And that makes it imperative that each of us (Uranus in Aries) assumes our dharma--our role in the social order. We are called to bring our strengths, visions and talents into society for its healing and advancement.

Capricorn gives us the motivation and strength, self-reliance and endurance to overcome obstacles and meet the tests life raises for us. So for this 1st New Moon of 2016, know that you have the resources within you to achieve those things that are important to you. At this time of deepening winter, just let those things gestate--they will be born at Spring Equinox. Now is the time to give them the nurturing they need to grow.

The Capricorn New Moon occurs on January 9th at 5:30pm PST/ 8:30pm EST and on January 10th at 1:30am GMT.

The Sabian symbol for the Sun and Moon at 20* Capricorn is: *A hidden choir is singing during a religious service.* This symbol suggests that when we unite in harmony of purpose, we can create a resonance that fills our hearts with courage, faith and beauty. We do something together that alone we can't accomplish. The beauty we create unites us with the 'unseen realms', bringing heaven to Earth. It's time to unite with others whose energies align with yours. We need all sorts of energies and tones, melodies and harmonies. Plant the seed that brings you into contact with your 'choir'.

As we begin this new year, be filled with optimism, hope and compassion for yourself and the world.

Walk in the Light,

Cathy

For a New Beginning ~ John O'Donohue ~

In out-of-the-way places of the heart,
Where your thoughts never think to wander,
This beginning has been quietly forming,
Waiting until you were ready to emerge.

For a long time it has watched your desire,
Feeling the emptiness growing inside you,
Noticing how you willed yourself on,
Still unable to leave what you had outgrown.

It watched you play with the seduction of safety
And the gray promises that sameness whispered,
Heard the waves of turmoil rise and relent,
Wondered would you always live like this.

Then the delight, when your courage kindled,
And out you stepped onto new ground,
Your eyes young again with energy and dream,
A path of plenitude opening before you.

Though your destination is not yet clear
You can trust the promise of this opening;
Unfurl yourself into the grace of beginning
That is at one with your life's desire.

Awaken your spirit to adventure;
Hold nothing back, learn to find ease in risk;
Soon you will be home in a new rhythm,
For your soul senses the world that awaits you.

2016-01-06 [White Privilege and the Myth of the West](#)~ An Oregonian's Take on The Oregon Militia

By [FrustratedProgressive](#)

<http://www.dailykos.com/stories/2016/1/6/1466817/-White-Privilege-and-the-Myth-of-the-West-The-Oregon-Militia>

I have actually been trying to avoid the Oregon militia story, not because I don't know anything about it but because it hits pretty close to home. I live in Oregon, and I have family in Burns. My grandparents used to live there, and my aunt and her partner live there now. Having spent a fair amount of time in Oregon east of the Cascades, I know the people there. They are quintessential Western folk. The mythos of the rugged individual is strong with them, and the stereotypes of the

Oregon hipster so brilliantly lampooned in *Portlandia* cease to apply outside the Willamette Valley. Eastern Oregonians live in small towns and outside of towns on ranches and in some cases farms. They drive trucks. They hunt. They fish. In the case of my grandparents, they drive around looking for rattlesnakes to skin and eat. The walls of my grandfather's machine shop in Burns were decorated with some of the skins.

It doesn't matter that the story of the West would be impossible without the federal government playing the role of idiot landlord as described in [this piece from the New York Times](#), giving away its holdings for nothing or nearly nothing in the 19th and early 20th centuries and still now charging too little for the use of its vast tracts of land. It doesn't matter that conservation benefits everyone. To the people of Eastern Oregon and the other parts of the West from which the militia hail, the government in Washington, D.C. are bumbling idiots at best, tyrannical eco-socialists totally out of touch with the reality of the lives of the locals at worst. In the case of Oregon, the same holds true for their view of the state government, which is under firmly Democratic control due to the heavy concentration of population in deep blue Portland and its suburbs.

Josh Marhsall of [Talking Points Memo](#) describes the actions of Ammon Bundy and his buddies as "white privilege performance art", and I agree completely. The people of the rural West are indeed overwhelmingly white, and were it a group of racial minorities with guns storming a federal building—even, I suspect, one in Harney County, Oregon—I have no doubt that the locals would be demanding the place be stormed at once.

But there is more than white privilege at work. The militiamen personify the great contradiction between the myth of the West, of the toughest of the tough eking a living out of marginal land with no help from anyone outside the local community, and the reality that they have *always* been dependent of federal largess and, historically, federal troops to protect them from the previous

occupants.

I just hope that the occupation won't go on for much longer. It is causing real harm to the community, where schools are closed and people are terrified of being hurt in a violent showdown. The people of Burns want the militia gone. The sheriff's department wants them gone. [Update: [The local Native people want them gone](#) from what they consider their land.] They have long since made their point. It's time to go home. You aren't patriots nobly defending helpless people against a tyrannical government. You are privileged assholes with no sense of how you came to acquire that privilege. You are welfare queens demanding the power to give yourselves more unearned benefits.

<http://www.dailykos.com/stories/2016/1/6/1466817/-White-Privilege-and-the-Myth-of-the-West-The-Oregon-Militia>

Apparently, it's okay for white militia types to take on the government, with little or no retribution, but there's one group that the armed protesters don't want to take on – birders.

An apparently abandoned federal wildlife refuge building might seem like a logical place to hold a petulant revolution, but it's not so abandoned and the birders are not sympathetic.

The birders are headed to a nearby town called Burns, Oregon to evict the armed squatters. While the ranchers might play hunter on occasional weekends, the birders know how to survive in the outdoors, armed with nothing but cameras and binoculars. While the protesters are obnoxious and heavily armed, the birders blend in.

In an [open letter](#) in the Daily Kos, Kevin, a wildlife teacher and nature photographer who goes by the name, Norwegian Chef, posted a "warning from the birding community to the terrorists in Oregon: We're watching you."

The birders don't hesitate in calling the militia men "terrorists." They're pissed at how these particular entitled-feeling ranchers abuse federal wildlife land and the wildlife itself. In fact, the birders have been standing up to these guys for a very long time.

For years those of us who are wildlife photographers, birdwatchers and carers of wildlife, have been documenting the activities of you poachers and criminals around many of our nation's wildlife refuges. With our powerful cameras, and ability to move unseen in the wilderness, we have found and documented your illegal hunts, your illegal traps and all sorts of illicit activities, and are constantly feeding that information to law enforcement, and we have finally got many of you poachers on the run and into jails.

As Oregon's Congressman Earl Blumenauer just stated, "Armed insurrection is terrorism. The situation at the Malheur National Wildlife Refuge shouldn't be allowed to fester but should be dealt with firmly, swiftly and fairly. The continued disruption to the community of Burns and occupation of a federal facility is unacceptable. Those involved should be arrested and prosecuted"

While the armed militia is likely made up of weekend warriors who drink beer and shoot, just for the sake of shooting, at innocent animals, the birders are 40 million strong and they are accomplished at all things outdoor. They are the most stealth of hunters, but the only weapons they use to shoot their prey are cameras.

Kevin notes in the open letter than he is a lawyer and that there are other lawyers among his ranks. He made it very clear that if the Feds don't prosecute, they will be suing.

We have a just fear of nature from experience, but we don't fear you gun-toting thugs in the least. You will never see us, but we and our cameras will always see you. We will #takebackmalheur from you terrorists, and will not rest until every one of you thugs and poachers is behind bars where they belong.

Finally, Kevin said:

We stand now and forever with wildlife, and you seditionists and terrorists are about to find out that's there is a natural law of karma that vindictive people, who go out and poach innocent animals, will never be able to outrun or hide from.

We are watching you and our years of birding photography have made us endlessly patient and determined.

Kevin and the birders realize something that the Bundys and other ammosexuals fail to grasp – a compulsive need for a gun for protection is cowardice. True bravery is facing the world, both human and animal, armed only with your wits. Unfortunately for the terrorists, they're seriously lacking in wits.
