### Hard News

**T: Thanks to everyone:** it is really a blessing not to feel like you're not going to have a home!

Let's have that blessing manifest for people in Ukraine and Gaza

- On Abby Marten: 600,000 people have left Ukraine to go to Russia, thanks to the criminals and no one is talking to the civil war that is going on there that has been started by the same ones

**R:** and it is NOT MR PUTIN!

- This is the death throes, the last of the last, of the cabal

### R: talked to Tom the Cat today

- in the District of Criminals those who give their allegiance to the ancient story of the hanging stories of Babylon and their so-called corporate masters of the C-Street kind
  - the Family believe they are the caretakers for those who are coming: the ancient Babylonians
  - However, they got the story screwed up: Mother's people, the Annunaki, are here to collect their own people to take the intergalactic criminals into custody, as they are also international criminals

- Tom talked about the absolute insane obstruction against the president who is working to move us forward; they swore at the Caucus restaurant, the night of the inauguration, to make Obama's term a failure
- Someone else told him - came on Leslie Marshall's show: talking about immigration and the issues:
  - Obama met with the leaders of Guatemala, Honduras, El Salvador: setting up centres there for the children who are returning can have some help re-integrating – won't help

**Al Jazeera:** Ronald Reagan started the School for the Americas: grown up gangs trained to be death squads, and they recruited the kids; when the kids escaped to L A, they got integrated into LA style gangs like the Cripps or the Bloods and were recruited to be part of the drug scene: they had learned from the School Death Squads how to be deadly

- also got inducted in LA gangland styles:
- R's older brother and sister were involved with this: it is about survival issues
- when the kids go back to Honduras, they had worse trouble: join or be killed.

**Chief White Horse**, part Blackfoot, part Squamish, talked of the immigration issue with Leslie Marshall discussed the original people who were here before anyone else was; they were black people who were native indians from Le-muur-ia and Atlantis – brought up these stories with the Aboriginal Moabite Nation and how these people have been screwed with

- spoke about the criminals in congress and the Vatican, and the issues around the following:
  - the created state called Israel and the original place where it always has been called Palestine:
  - the created story where the Black Mother was removed and created with the frail white one called Mary. If the real Mother Mary were here, she'd slap them one a good one as she was from Syria and she was black. She represents the true history which has been covered up, changed, and made docile, gentrified
- Rama's buttons are pushed: he saw the separation and the racial issues in the 60s and 70s: yet what he sees today is far, far worse: the police are programmed terminators [eg, the man who was put in a choke hold by police in NYC & died; another man in the same situation lived; a man was shot by the Albuquerque police who shoot first and ask questions later]
- the whole world is condemning what Israel is doing – a universal up-roar
- there are some members of Congress who are so angry at what Netanyahu has done that they are sworn to cutting off Israel's money
  - These members are also looking for ways to call on the carpet murderers, pedophiles, thieves which is what most of them are

**Chief White Horse:** made it very clear that the earliest people were black, not red – came from ancient Mu, the Land of Muur

- The land went up and down under sea level for millenia until the whole thing finally went under
- there were land bridges between places which were often 2 feet under the water but people could still cross them and walk to solid land
- he brought up the story of Cydonia or Helium: how these folks who were members of the Galactic Federation of Worlds were caught in skirmishes of the Orion War and migrated to Mars from various other planets, and then to Earth; they were the original ones who created the monuments on Mars, as Richard Hoagland calls them, the technology of which is still functioning after millions of years, though the original people are long gone
- he identified the 14 treasonists who were in the Caucus Restaurant the night of Obama's inauguration; also mentioned Lindsay Graham and John McCain
- Mr Kerry is not a nice man; Francis worships at the feet of Lucifer & is a total sham; those who worship Lucifer are skin walkers and do not deserve to walk the halls of Congress; if Boehner were taken into custody, he'd curl up in a ball and sob helplessly – he's been so traumatized by his alcoholism and other things; did not realize when he started how dirty the dirty stuff would become; he was a Democrat during time of JFK Sr – don't know why he changed sides

**Gaza:** well over 200 children are dead; There is a lot of pressure on the

- the CEO of the MSNBC station is beholden to the corporations who worship at the feet of Lucifer

- There is still a lot of dark energy in air force, navy, army – lots of people called Thom Hartmann and said unless we cut off the money to “the beast”, there will be no change
- T refers to what Katrina Van den Heuval said on Amy Goodman's **Democracy Now**:
  - what are we doing with a NATO? It's a military beast – nothing to do with where we are headed, so get rid of it.

**R asked Tom the Cat** who was in DC: why do we have a standing army?

- He said you know why we have a standing army – there is no one on the planet that is a direct threat to the United states. The only threat these criminals want to manufacture and create is from the outside as Ronald Reagan stated – **want to create a fake war against ET.**

**R:** why are they still doing this? Was told 5 years ago this was cancelled

**Tom:** It is still happening because the fear card is all that is left

**R:** they want to play with that and it has been nipped in the bud and failing.

- The children of today and around the world are meeting the galactics and saying: “we welcome you with open arms, come and meet my parents”

**Palestine:** over 1200 children severely injured – 80% of all murdered are civilians

**R: story about Jeremy Scahill** who called Leslie Marshall because she asked the following question:

- was it Hamas or Israel who bombed the school?

**JS** tore into Leslie about it: all going back to 9/11

- She started off her show asking if Hamas was guilty: if you are a talk show host and not on an alternate station like BBS, you get whipped into shape by the corporate masters!

**[T:** people were saying Hamas bombed the school where 16 kids were killed – just to entertain this is disgusting]

**JS:** With all due respect, Ms Marshall; you have to get your facts straight. We have been watching a coup d'etat by Israel against Palestine and, by the way, Israel did 9/11.

- there are so many facets to this story; need to study before you throw irrelevant facts around
- Did you ever watch the movie “Where did all the towers go?”

**LM:** Said she did but was not up on the science presented

**JS:** go and watch it again, and talk to ArchitectsandEngineersfor9/11truth.org

- can get the explanations you need [we can all do this!]
- 9/11 and the subsequent protracted invasions of Afghanistan, Iran, Iraq, Libya, Somalia, Afghanistan, Syria, Ukraine, et al
- all HAVE TO DO WITH STARGATES; they are all over the world where the invasions happen
- The entire story has to do with a topic that does not get told on mainstream media which is controlled by Zionists. The story is about the Hanging Gardens of Babylon and the Annunaki, and don't crack any stories about Lizard people.

**LM:** she asks if he has seen any of these people

**JS:** Take a good look at Condi Rice, Donald Rumsfeld, Dick Cheney – everyone has seen them

- Go to godlike productions and you can see them shapeshift; and Hillary is one of them as well

**LM:** Time to go to a break; thanks for the info, Jeremy.

**Reading:** Facts all Americans need to know about

**[SEE BELOW]**

**Conference Call:**

**Caller1:** asking about number of species in universe

**T:** 95% of all creatures in the Universe of Nabadon have human DNA

- the Universe of Nabadon is a super universe, the only one with polarity;
- the others are in anti-matter meaning they are non-physical; we co-created the physical universe with the help of Mother
- the MWG is very teeny, tiny galaxy in the overall scheme of thins.

**R:** through the Hubble telescope: there is a website you can go to and look through it

**C1:** are there species on Neptune, Pluto, etc?

- Yes they are but no matter where they are, they still have 95% human DNA
  - R has met bee people, ant people from the Orion Constellation; elephant people;
  - the people on Venus our sister planet where Valiant Thor and the 14 Kumaras come from – they are human; Venus ascended a long time ago so they are all ascended masters;
  - Venus has a shield around it that makes it look like an inhospitable planet, a holographic image is overlaid over the planet which has lakes of liquid light and other such things
- the over lay is there so we, the people of Earth and our conventional science, cannot get past unless we work in the higher dimensions; Venus does not engage in any kind of warlike activity
  - she is our sister planet and this is why the 14 Kumaras came here: to bring us to their level
- R once channeled Sanat Kumara for 1.5 hours – wonderful that we are being visited by so many folks from Venus as part of the contingency force on earth;
  - a lot of people in the Pentagon know about this but cannot talk about it –
  - this is what Judy Beebe talks about. So many good people helping us –
  - There is only a tiny number of people caught in the Homer Simpson rage!

**C 1:** any place on the web where can see pictures of Mars and other planets?

**R:** EnterpriseMission.org or .com

[ **Richard Hoagland's official site, devoted to his theories about the Face on Mars, NASA conspiracies, and more.** [www.enterprisemission.com](http://www.enterprisemission.com) ]

- he has all kinds of picture of mars: he has even seen rabbit-like creatures on Mars – 3' tall

**C1:** on the back side of the moon, any evidence of structures?

**R:** Sci Fi Channel – had a special about what people have seen on the moon and forced to cover it up

**C 1:** what about [site called] educating humanity – what do you think of the site?

**R** hasn't explored it enough really

**C2:** invited to an event; saw pictures from Richard Hoagland – the Chinese have a website with pictures of Mars; Hoagland has more up-to-date ones.

**C3:** has to re-send them the info on the Aboriginal Moabite nation;

- now back in North Carolina & residing permanently in Asheville

**C1:** there is an **Occupy Raleigh website**

**C1:** putting in a plug for James Gilliland at Mt Hood – ECETI; event is this coming weekend

**T:** he's not quite clear on NESARA yet, but he'll get there!

**T:** a story on **NHK, Japan:** on a little island, a former postman returned to where he started

- he used to run the original post office; retired, came back, bought the building and re-opened it as a small gallery; 2x a week, visitors can come and read the post cards.
- The content of some of the cards are read out: the writing of the cards affords some relief for the feelings of the people who both wrote them and read them
- The post office is called “The Missing Post Office”

**T:** The stories about heavy rains all over the planet:

- from France to the Balkans to Romania
- Shang Hai to Taipei to Korea - 34\* very hot weather
- **Thom Hartman:** precipitation from the warming up is here now, not in 2100 AD

**Rachel Maddow:** the death penalty – shooting in the head with no warning

- she brought it up because of the 3<sup>rd</sup> execution that has been botched in the US – the drugs have been banned all across Europe and other places because they do not believe in the death penalty

**Rachel Maddow 07/23/14**

**Execution a ‘failed experiment’: attorney**

Dale Baich, attorney for Joseph Wood, who witnessed Wood’s botched execution, talks with Rachel

Maddow about the ensuing legal steps as it becomes increasingly clear that the practice of killing prisoners with secretly sourced drugs is flawed.

<http://www.msnbc.com/rachel-maddow-show/watch/drug-makers-limit-state-execution-options-312581187821>

T: has to do with the uncovered Zionist behaviour

• **Position of someone Rachel had on her program:** If you are not willing to use a death squad, then we should not be doing it at all – at least some of both Democrats and Republicans agree on this.

T: **from MR:** they are getting 1/10 of 1% of what they are used to in Indiana – no rain and it's blazing hot!

**C2:** what can lightworkers do to bring in the rain?

T: it's universal energy work: this is the price being paid for not cleaning up the fossil fuel use and stopping the criminals

**C4:** Look up “orgone devices” or “orgone buster” – a chemtrail buster

- supposed to mitigate the influence of chemtrails in a 60 mile radius;
- lives in Virginia – have not had a lot of tornadoes there – knows orgone energy works

T: will it help with rain?

**C4:** known for removing blocks in people – if you have one in your back yard, won't hurt

- Just be careful with the resin
- Has heard stories about the effects on gardens, and they have an abundant garden, too
- Helps create a balance

**C5:** has a new job; has made orgone busters – the larger ones do bust them up

- Believes they do make a difference

**C4:** has a GEM sphere - will see what happens – will make journal entries

- Judy Beebe described it one way; he calls it “divine equilibrium”
- they are like companions and you get to know them – the higher principle pulls the lower one up!

T: the more we are tuned to these different technologies with our vibrations, the more things happen

- Cynthia built one in her back yard [orgone buster]
- Someone else built a spherical structure with 4 rooms downstairs and 2 up; each room was round for sound and vibration healing technologies; she could get the temps to cool down or rain

**C4:** [trinitypointproject.com](http://trinitypointproject.com) This project is in Virginia

**C6:** hard of hearing; some of the words are not clear – wants the weblink to his crystal machine

**C4:** [trinitypointproject.com](http://trinitypointproject.com) – e-mail is listed on the website at the end.

**C6:** asks about creating rain in Ca;

**C4:** build an orgone generator with some others, share the cost

- won't hurt the earth or the area around them
- the instructions can be printed out; build it
- find a magnetic hot spot using dousing rods; bless it
- the energy ebbs and flows, contracts and expansion
- Just call the rain: “gentle rain”

T: Gregg Braden: **The Isiah Effect** - just pray “rain”, or pray “gentle rain”

## **BBS Radio:**

### **Mother Sekhmet:**

Greetings in the Light of the Most Radiant One, in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame.

**T:** asks for deep transformation to occur, in all parts of our being; in all walks of life, may Love prevail!

### **Greetings, Children of Ra!**

Indeed, Lord, make me an instrument of thy peace! There is so much love to go around in this realm; we all are experiencing such tremendous waves of change at such a rapid rate. She only commends us for our commitment to the forces of Light to heal this world because love is the answer, it is the only way through this key hole which is as large as the Dark Rift of the Milky Way Galaxy. It is this story which is transpiring in the moment.

- her children know the spectrum of the ramification of their deeds; it is time. This planet is already in the throes of ascension and we are too and humanity in all its forms: no matter if we are an ant person or the president of a country, it is only about love.
  - The tremendous frequencies of the mighty I AM are the order of the day

- as we know, ISIS has returned to the land of Kennet, the Black Land;

**T:** She is placing a crystal from Iceland and the Peace Tower between the border of Israel and Palestine

**Mo:** Yoko Ono, John - as of today, she is in Egypt;

**T:** because of the pow wow there

**Mo:** Mr Kerry - apparently they have agreed to a 12 hr cease fire – happened in the last few hours.

**T:** what are these cease fires? Last time, there were 3 hour cease fires so people could get food, etc

**Mo:** a bit of a bad joke: the only answer to the story is a one state solution. This land which is an ancient story of the people of the Black Land; always has been this story of the people of this realm which represents **the Aton**, All that is ascending and manifesting the love frequency in spite of what is happening with the ancient technologies of death that have to answer to the laws of Love; it is the nature of the quantum field – no other way around the story.

- The crystal being brought there is already there; it is about the frequency - a high Priestess, the story of ISIS returns to her home land; it is removing the darkness at the moment.
  - That which seemingly is in power is a shadow of the true might of the land of Kennet. What is transpiring in the Black Land is about the futile attempt to use the ancient powers for control, yet the people have said we want freedom; we want it now.
- The former general of the Egyptian army, SISI, now president, is worse than Mubarak, T thinks. The journalists of Al Jazeera still behind bars; all about unseen shenanigans, deals, about control
- It would be in the best interest of Egypt to open the border of Egypt to Palestinians; and for the rest of the world to say to the Khazars “you cannot continue with your genocide, ecocide – the ramifications - what goes around, comes around, good, bad or ugly.”
- This is a vast collective consciousness: whatever you think, therefore it is. If you wish to manifest peace, you do it with each deed, of each second, each thought.
  - As we are in the Day out of Time – all we are in is the NOW and there is only this NOW moment:
  - This is as it should be - everything else is a distraction; as we maintain our focus on that NOW, that is the key to raising the frequencies to the realms in which we can experience the NOW moment and not get caught in the maya, the illusion, the vast amusement park for our pleasure as well as our pain, whatever we want to create: Samsara is over; suffering is optional.
- What is this issue about suffering? T says it does not look like it in Palestine.

**Mo:** It has to do with the undealt with energies, which ARE being dealt with here and now.

**T:** We are beginning to hear about it: just today Jeremy Scahill said Israel did 9/11; she has the rest of the article on 9/11: “The Architecture of Terror – mapping the Israeli Network behind 9/11”

- Mo:** it is about the small group of lifeforms she lovingly calls her children who have asked to play on the realm of the dark side, knowing full well how deep the ramifications would go; they bought the lies of this amusement park that as you claim power absolutely, it consumes you. They are being consumed by their own issues that have not been dealt with formillenia and millenia & millenia.
- As all time is NOW and there is only this moment NOW, there is a place, a sliver of a wisp of forgiveness: it takes only a nano second say "Please forgive me lord". Yet to hear Mr Boehner say that would be monumental.
  - She would say that in the perspective of divine grace, gratitude and love, forgive them for what they have done: there is always space for forgiveness and balance and joy/ Yet their joy comes at a tremendous price - vicariously getting off on the misfortune of others. There is a way of garnering attention, yet the wrong kind of attention. Because they are so filled with PTSD at such a deep core level, how can they be expected to rise from the ashes of this fake story?
  - Yet it is already coming to pass that grace has manifested on this planet:
    - always room for forgiveness and grace and gratitude; it is as Master Obi Wan has said it is about your point of view: how you view the universe in the realm of the scheme of things: how you view it is how it comes into manifestation
    - yet they cannot get past the nose on their faces simply because it is a challenge at 1 in the morning, 2 or 3 in the morning when you are sitting with a rum and coke and cigarette, trying to figure out how to forgive self for all the murder you have orchestrated.
  - All it takes is the instant to say "Lord, forgive me" - it is that easy, yet for them to come to that cosmic realization takes tremendous courage and she says "Hold the sacred thought in balance and joy that they could, in some realm of whatever universe they exist in, that they could see their paradise in the realm of forgiveness. Not too hard to conceive of, but the predisposition of what they have chosen to play with – to get from A to B, there has been so much space between those two points over the millenia- how could they get there?
  - We would wish them all the courage they could hold, and more; yet we already know that her job is already beginning: taking them to the Dark Rift where the cosmic soup that makes up what we understand of matter and anti-matter, the beginning, that is the Big Bang, the Higgs-Bosen story – chasing ghosts!
    - That story your sisters talk about: the hungry ghosts that roam in this realm because they are disembodied life energy looking for a new residence, wanting to suck on other people's energy – if you are in the realm of substance abuse of whatever kind – thought form energies, addiction to thought forms - whatever you wish.
    - This temple of the living god [body], all that is – you can heal things in an instant, or, in an instant, you can say f\*\*\*it; I'm out of here; I might as well \*\* and I'm on the other side and the cycle repeats itself.
  - T:** Until you get it: you are more than that!
  - That is the key here – Jonathan Livingstone Seagull said to his fellow gulls: you are more than just a body; you are the great gull. Remember that in all you do;
    - as you hold that sacred place of thought form energy, it manifests instantaneously for all to see – like Tinker Bell coming with the wand, waving it and saying "There you go! You can fly! "
    - Believe in the magic of who you are: forget the lies you were told between 5 and 13 years old
    - you are more than what you think you are: you are that magnificent temple of creative, infinite beauty, gratitude, love – it is a challenge to get past that place where you set aside the things that bring those thought forms down; that is the greatest challenge in this moment.
    - In this present moment of No Time, It is more of a challenge to stay in this temple of the Living God than to leave.
    - The greatest reward is to take this temple with us in Infinite immortality since we are all immortal
- T:** she needs some teeth, Mother
- Mo:** so does he [ref to Rama!]
- Mo:** It is a challenge to be in these temples; believe in miracles as Catherine Coolman used to say at the Shrine Auditorium : "I believe in Miracles"
- the magic of believing who you are creates the infinite immortality. Since we are in a garden of

infinite beauty and grace, we have all the keys we need to all the kingdoms; you are the master of this realm and we humbly say “Go for it, masters, with all the gusto you have”

- Be aware, though, that this realm has its idiosyncrasies – when you think you've got it, serendipity throws a curve and says 'you got it; here's some more'; then you are sitting on a pile of sand or snow, and you're going 'Ashtar, why did you do that?'
  - she is referring to him [Rama] when he said 'They kill folks down here: how can it be that brother goes against brother; sister against sister, and they have no respect'
  - That is when you lift yourself up by the grace of your Divine being and know that your Mighty I AM Presence carries you through this realm -
  - it is not the valley of death, but the Elysium Fields of infinite bliss and joy – in spite of the fact that it looks like Mordor; the Great Eye is watching with infinite wisdom – it knows its time is up; cannot continue in the present space/time mode of existence; the great eye has already fallen, and Mordor is a shambles
- The grace of this beloved planet - The Cities of Light, like Genii has said - are already manifesting on this planet – believe in this magic – as you manifest it in here [high heart]
  - the key to the story is how to get to the place of the high heart – we were not taught this when we got here and we promptly lost the instruction manual to this temple: ET 101!
  - we are immortal; act like it as creator gods and goddesses: do not get caught in the maya, the illusions of this amusement park with Lilith saying “Want some of this candy little one?”
  - This is the place where ego gets involved; we tell ego to go sit in the corner and allow higher consciousness to step in; ego will have its place, but this is about the high heart.
  - As we think with the high heart, the ego takes a back seat – not gone; still there, but in perspective where we think with the high heart.
- the greatest story in this realm is the least among us: the people of Gaza, the people of Aleppo, Ukraine  
**T:** this week alone, 1700 people died in Syria  
**Mo:** she knows; she was there.  
**T:** are we not sick of this horror story?  
**Mo:** This one risking her life daily [Amy Goodman] to bring us the news we will not hear from Steve Kornacki, Chris Hayes, Rachel, Chris Matthews or the others
  - Sharif Adbul Kadish & others of Al Jazeera: the story of Islam needs to be brought into focus where Mohammed and Sananda are side by side; all the ancient sisterhoods and brotherhoods are back, walking with us; she walks with the Commander in Chief in the west wing. All the pieces are in place; it is about we the people have the power as we use it in infinite grace**T:** is it coming round?  
**Mo:** there are more and more of us stepping up to the plate and knocking it out of the park!  
**T:** those coming to Thom Hartmann are not lost in the Maya! They are calling Thom out  
**Mo:** the brave souls like Lee Camp and Abby Marten; the ones speaking truth to power are coming fully into focus and taking us how to get to the next level in joy, and infinite grace & humbleness of the infinite joy of being alive at this time, to experience joy, to have a temple of the living god to get this one in infinite wisdom in spite of the realm of intense energies that have created a seeming separation of worlds;
  - it is no separation - WE ARE ALL ONE. The illusion is that we are separate; the consciousness of all of us is taking us to the next level.
  - The morphogenic field, the quantum field, of who and what we are have said: ascension is assured – yet how we do this with each other in infinite wisdom and grace is the key.
  - Lord, make me an instrument of thy peace; how I may I best serve in this day. Ask in the night work to be taken to the place where we can be of the most service with the greatest of joy in this moment NOW so we can be of service to ALL THAT IS. And that is simply that we ARE ALL ONE.
- As we do this for self, we do it for ALL THAT IS; there is no separation, yet the 1% think they are separate and apart from the 99%. No separation; it is simply that they have removed themselves

from the energy of the high heart, the field of experiencing divine service –

- As we can serve, to be of service right now is the greatest joy – to be of service to children who are tired of hearing the buzz of bombs and rockets, the sound of gun fire; and all the other ancient technologies that are simply about the greatest inequality that we created for ourselves in this realm of seeming separation: there is no separation - we are one with each other; how we do this for each other . . .

- when you look at McConnell or Mr Boehner up there giving their little talks, send them even more love; they know better than what they are acting out of - conscious, malicious, forethought, pre-meditated when they decided to put on the black hat yet even Vader received love from his son and he came back to love

- that is the greatest key here: how these ones have made a conscious choice to serve a realm that is not of the Office of the Christ, yet the Office of the Christ is always here, cannot be separated from that – you can choose to separate yourself from the Office of the Christ seemingly but there is no separation at all; it is illusion.
- there is only this moment NOW, this is all we have: no past tripping, no future tripping – this moment now, and the sound of One Hand Clapping is the greatest sound of such magnificent joy!
  - you can hear it roaring like the thunder we can hear on our planet - the tsunami wave of love cannot be stopped! This is the one thing they are deathly afraid of: they would sooner give up their life force than to face that grace and that gratitude of that moment of infinite joy, for how can they live with themselves for what they have done to these refugee children

- R asks how he can be more of an instrument to bring this story to conclusion

  - yes, some must be arrested, yet there are folks who know how to tweak the signals

Gaza (along with the West Bank and East Jerusalem) is occupied Palestinian territory under international law, determined by the vast majority of the world, as well as the highest court in the world, the UN's International Court of Justice. Gaza cannot commit aggression against Israel, since Israel is in constant and continual commission of illegal aggression against Palestine by occupying it (illegally and sadistically blockading it and frequently committing terrorism against its civilians, including by targeting them with chemical weapons provided by US taxpayers – see “Rain of Fire” by Human Rights Watch). As documented by Amnesty Int'l, Human Rights Watch, and many others, Israel intentionally targets and murders civilians, including children, en masse.

Israel also kidnaps and tortures children, including by keeping them in outdoor cages, over night, in winter.

But, even ignoring international law and that Gaza is under illegal Israeli occupation, Gaza did not initiate this current round of violence; Israel did:

Western/US/Israeli propaganda says the violence started with the kidnapping and killing of three Israeli youths on June 12th. That is a lie:

On May 20th, the Israeli government murdered 2 unarmed Palestinian teens, one on video, and wounded a third.

The firing of pathetic scrap metal rockets from impoverished Gaza, which have killed no one, were in fact launched in response to earlier Israeli bombings, killings, assassinations, and arrests of Palestinians, including children.

Since the year 2000, Israel has killed 1,500 Palestinian children, while Palestinians have killed 132 Israeli children. That means Israel has killed over 1,000% percent more Palestinian children than vice versa.

As documented by the Washington DC based non-Profit, The Jerusalem Fund, Israel breaks far more ceasefires than Palestine – this includes firing of the Palestinian scrap metal rockets.

For example, Amnesty International, Human Rights Watch, and many other human rights organizations reported that in Israel's 2009 Gaza Massacre, Israel killed about 450 children, and it was Israel, they documented, that broke the ceasefire. (In that massacre, Israel killed overall from 1,400 to 7,000 Palestinians, almost all civilians, while 13 Israelis were killed, several from friendly fire.)

According to a landmark, comprehensive study of all of Israel's wars, by Zeev Maoz, Professor of Political Science at the University of California, Davis, former head of the Graduate School of Government and Policy and of the Jaffee Center for Strategic Studies at Tel Aviv University, and former academic director of the M.A. Program at the Israeli Defense Forces' National Defense College:

“. most of the wars in which Israel was involved were the result of deliberate Israeli aggressive design . None of these wars – with the possible exception of the 1948 War of independence – was what Israel refers to as Milhemet Ein Berah (war of necessity). They were all wars of choice . ” – **Defending the**

**Holy Land**, pg. 35, (bold added)

“I review a number of peace-related opportunities ranging from the Zionist-Hashemite collusion in 1947 through the collapse of the Oslo Process in 2000. In all those cases I find that Israeli decision makers – who had been willing to embark upon bold and daring military adventures – were extremely reluctant to make even the smallest concessions for peace. I also find in many cases Israel was engaged in systematic violations of agreements and tacit understandings between itself and its neighbors.” – **Defending the Holy Land**, pg. 40

Israel has violated more UN resolutions than any other country. That includes Iraq under Hussein.

Hamas is the government elected by Gaza in elections that Jimmy Carter (and many others) observed and said were completely fair and free. Israel constantly says Hamas uses human shields. But in Israel's biggest massacre of Gaza, the one in 2009, all the human rights organizations, including Amnesty, HRW, and the jurist Richard Goldstone, found that Hamas DID NOT use human shields. On the contrary, Israel used human shields, which is a regular practice for Israel. Israel uses civilians as human shields.

Israel forced Palestinian civilians to dig and lay naked in trenches around Israeli tanks. See here at 6:45.

#### **Goldstone Report:**

#### **XIV. THE USE OF PALESTINIAN CIVILIANS AS HUMAN SHIELDS**

“The Mission received allegations that in two areas in north Gaza Israeli troops used Palestinian men as human shields... The Mission found the foregoing witnesses to be credible and reliable. It has no reason to doubt the veracity of their accounts and found that the different stories serve to support the allegation that Palestinians were used as human shields.”

Noam Chomsky: “ Hamas is regularly described as ‘Iranian-backed Hamas, which is dedicated to the destruction of Israel.’ One will be hard put to find something like ‘democratically elected Hamas, which has long been calling for a two-state settlement in accord with the international consensus’—blocked for over 30 years by the US and Israel. All true, but not a useful contribution to the Party Line, hence dispensable.”

In the history of all rocket and mortar fire into Israel, 26 people, total, have been killed. And remember, Palestine breaks ceasefires far less often than Israel, as documented above.

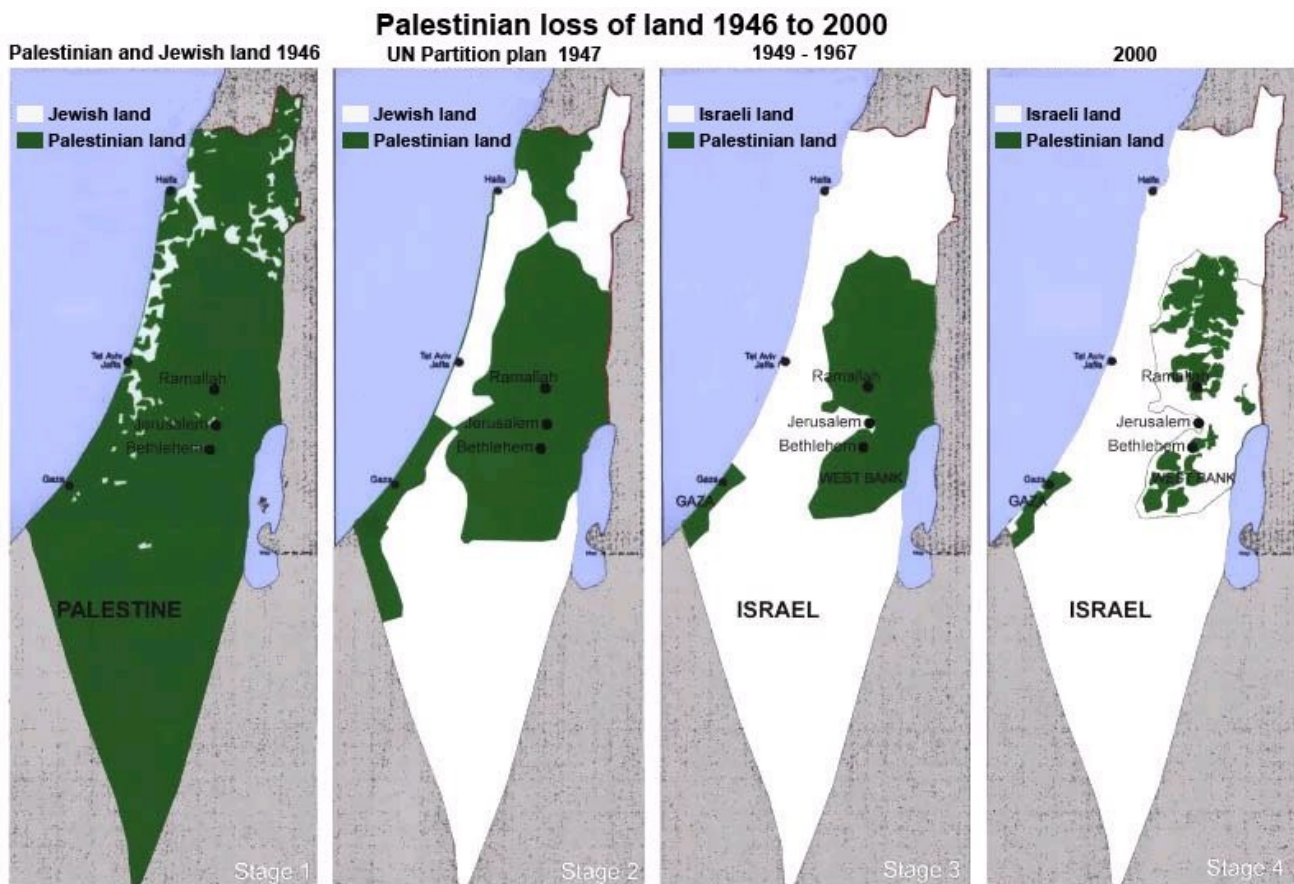

This number of 26 is in contrast to the minimum number of 1,400 people who were murdered by Israel in a single one of its terrorist atrocities, the 2009 Gaza Massacre.

Noting that in the current massacre, zero Israelis and over 100 Palestinians have thus far been killed, and noting that Gaza is a concentration camp – Israel allows no one to enter or leave – Dan Sanchez gives a perfect description of the disparity in arms between the US/Israeli war machine and Palestinian scrap metal projectiles: “They [the Gazans] are like fish in a barrel, being blasted by a shotgun from above. It's like some of the fish in the barrel pathetically spitting water at the gunman, and [US media calls] that a “shooting battle.”

The rhetoric and tactics of Hamas and other groups resisting Israeli occupation and colonization can be brutal (though far less so than Israel). Propagandists try to attribute this to anti-Semitism, to distract from the fact that these groups are resisting having their country stolen and their people dispossessed and annihilated. Native American resistance to European colonizers was sometimes extremely brutal, as was their rhetoric, but everyone universally recognizes that this was not because of “anti-White-ism”, or “anti-European-ism”, but because they were having their land stolen and their people massacred, the same thing that Israel is doing to the Palestinians.

Palestinians have the right under international law to resist occupation, ethnic cleansing, colonization, aggression, and annexation. Miko Peled, son of an Israeli general, recently stated that if Israel doesn't Like rockets, they should decolonize Palestine. Dr. Norman Finkelstein notes that "The Palestinians have the right to use arms to resist an occupation . However, the fact that morally and legally they have that right doesn't mean that it's the most prudent strategy. In my opinion, a national Palestinian leadership committed to mobilizing nonviolent resistance can defeat the Israeli occupation if those of us living abroad lend support to it."

In 1948, the people who wanted to form a Jewish state carried out a massive terror and ethnic cleansing campaign against the occupants of Palestine, expelling about half of them (750,000) from their land and into concentrated areas (Gaza and West Bank). Israel has slowly continued colonizing even those areas, which were specifically reserved by the UN for Palestinians. Israel takes all the best land and resources, such as water. Here is a visualization of what has happened, and is currently happening with massive support from Obama:

Obama requested more military aid for Israel than any president ever.

Israeli settlement building in Palestine is a war crime under international law. Under Obama, Israeli settlement building is up over 130%.

For about 40 years, there has been an international consensus that Israel must stop colonizing territory outside its 1967 borders. The consensus has been blocked by the United States, in isolation from the international community (much like the USA's isolated, strong support for South African Apartheid). Every year there is a UN vote on the issue, and every year it goes about 165 to 2, the world against the US and

Israel. This continues under Obama. All human rights groups support the consensus, as does Hamas, the Arab League, Iran, the Organization of the Islamic Conference... Virtually everyone, except the US and Israel. (More details on this page.)

Palestinians are brutalized, repressed and impoverished by Israel. To get a quick visual understanding of the difference between Gaza and Israel, take a look at the images of people and cities being wantonly pummeled by Israeli terrorism when you search the word "Gaza", and the images of opulence, wealth and luxury that come up when you search "Tel Aviv".

Israel has an illegal stash of hundreds of nuclear weapons.

Israel, whose government intentionally targets, tortures, and murders civilians, including children, including with chemical weapons, and whose government uses Palestinian civilians as human shields, and whose government is the last entity on Earth carrying out old-style ethnic cleansing and colonization of foreign countries, is the single biggest recipient of US aid, at over three billion dollars a year and huge amounts of lethal weaponry such as attack helicopters and white phosphorous chemical explosives.

To reiterate, Obama requested more military aid for Israel than any president ever. This is not because Obama and the USA love Jewish people. Obama was recently an accomplice in a literal neo-Nazi-led coup d'état in Ukraine, and is currently fully supporting the junta-integrated Ukrainian government, which is staffed with several neo-Nazis in high ministries, and which uses neo-Nazi paramilitaries to carry out massacres (and possibly genocide) against people resistant to the junta. The actual reason the US supports Israel is discussed below.

As Amnesty International has noted, all aid to Israel is illegal under international (and US) law, because Israel is a consistent violator of human rights.

Amnesty International also noted that Israel's 2009 massacre of Gaza would not have been possible without the illegal funding (money and weapons) and support Israel gets from the USA.

This is also true of the current massacre Israel is committing in Gaza.

However, in a way, that is good news.

That means US citizens can STOP the massacres.

If we stop our money and weapons-flow to Israel, which is illegal anyway, we stop Israeli terrorism! All we have to do is stop committing a crime, and we will stop more crimes! That's great news.

Here is a previous example of how this has worked: When the USA cut its funding for Indonesia's genocide against East Timor, which the USA was funding almost exclusively, Indonesia was forced to stop and withdraw. All it took was cutting off our illegal flow of money and weapons to the criminals.

The same thing would happen if we cut our illegal funding for Israel's genocides and acts of terrorism, ethnic cleansing, colonization, and annexation against Palestine.

But since the USA is an anti-democratic country, the only way to stop US plutocrats from using our money to fund Israeli terrorism is to force it through massive, non-violent pressure.

One way it happens is when it becomes too politically costly for the plutocracy to keep funding genocide and terror, meaning the costs of their illegal support outweigh the benefits, as in Indonesia. In that case, massive publicity and indigenous resistance accomplished the goal.

But Israel is the USA's main imperial – and nuclear – base for controlling the Middle East, which US

planners, in 1945, called the greatest material prize in world history, due to the oil and gas. Thus, it might require more, as in non-violently making our country into a democracy so that people control their own institutions and money, and thus the way we operate as a society and interact with the world.

Last note: To be clear, Israel is a legal state, but only within the borders allotted to it by the United Nations – the Pre-1967 borders, which existed before Israel started eating away, through terror, ethnic cleansing, colonization, and annexation, at the areas reserved by the United Nations for Palestinians, as well as areas of other countries, such as Syria (the Golan Heights).

Per international law, US domestic law, and common sense, Israel doesn't deserve any support until it abandons isolationism and accepts that it can't steal other people's countries, and stops blockading and withdraws its soldiers and settlers, all there illegally, from those countries.

Israel is, militarily, the most powerful country in the Middle East, by far. Removing our support for the Israeli government (which we are legally required to do) will not put Israelis in danger. It will pressure the Israeli government to stop doing what endangers Israelis, which is committing aggressive acts against Israel's neighbors.

If Israel ends its status as a consistent violator of human rights, decolonizes Palestine, and respects its neighbors, it could be a pleasure – and legal – to work with and support Israel.

Germany, Japan, and South Africa went from being the most reviled countries on Earth to being some of the most admired. Maybe Israel could undergo the same transformation, but not unless we, US citizens, help by ceasing to enable Israeli terrorism and war crimes by illegally supporting them.
