This invite-only session will feature the Business Call to Action’s work in strengthening the enabling environment for inclusive business through public-private collaboration and mechanisms to support private sector commitments to address development issues.

Public-private partnerships at the country level play a vital role in creating an enabling environment for inclusive business. By working with public-private organizations in Kenya and the Philippines, the Business Call to Action seeks to mainstream the principles of inclusive business into policy and action.

Through interactive activities and discussions, this session will enable participants to explore the further steps needed to propel inclusive business at the country level.

**THIS SESSION WILL BE LIVESTREAMED VIA THE BCTA CHANNEL ON BUSINESS FIGHTS POVERTY**
