

## Green Light North London is offering **FREE** business support

Your business could **make substantial financial savings and improve environmental performance and competitiveness** by becoming more efficient and gaining green credentials.

### Let Green Light North London help you:

- Develop an action plan to save energy, cut waste and reduce water use
- Produce an environmental policy tailored to your business
- Gain accreditation to eco-standards, such as ISO14001
- Understand and comply with legislation
- Market your green credentials and **win more business**

Our pool of experts can provide you with flexible ongoing support and one to one advice, tailored to your specific requirements - whatever the nature of your business and whether tenant or owner. Please give us a call.

Most small and medium sized enterprises (up to 250 employees with a turnover of less than £40m) in North London are eligible.

The programme is part funded by the European Union, through the European Regional Development Fund.

**Solutions that can be provided include:**

**staff engagement**

**waste minimisation**

**low carbon building improvements**
