X is the location at Lawrence and Troy Ave where 13 year old LAZARUS JONES was murdered in 2007. Lazarus’s mother attended the June 7, 2013 conference. She posted her web site on the Tutor/Mentor Connection forum. Visit http://www.lazarusjonessocc.org/ to learn more about this.
This is where LAZARUS JONES was murdered in 2007. I don’t see any tutor/mentor programs in the area where this happened.
For there to be mentor-rich, k-12 tutor/mentor program in an area, someone has
to mobilize leaders in business, philanthropy, media, religion, education, etc. to
take the actions needed to build and sustain such programs.

The information on Tutor/Mentor Institute, LLC web sites can be used by
leaders to support the growth of programs in many places.

Visit [http://www.tutormentorexchange.net](http://www.tutormentorexchange.net) and join the form at

This graphic was created by an intern. It is one of many that can be found at http://www.tutormentorexchange.net/definition-of-issues/ideasanimation

And at http://michaelcnt.blogspot.com/

Youth in high poverty neighborhoods, and in affluent neighborhoods, could be creating presentations like this, and taking on leader roles to mobilize volunteer, leader and donors support for tutor/mentor program growth in areas where young people like LAZARUS JONES was murdered in 2007.
