This child had a reaction to a new meningitis vaccine.

On December 20, 2012, a vaccination tragedy hit the small village of Gouro, located in northern Chad, Africa. According to the newspaper La Voix, out of five hundred children who received the new meningitis vaccine MenAfriVac, at least 40 of them between the ages of 7 and 18 have become paralyzed. Those children also suffered hallucinations and convulsions.

Since this report, the true extent of this tragedy is coming to light, as parents of these vaccinated children have reported yet more injuries. The authorities in the area are shaken, as citizens set fire to a sanitary administration vehicle in a demonstration of their frustration and anger at the government's negligence.[1]

“We wish that our children would get their health back,” shared the parent of a sick child.

THE MENAFRIVAC VACCINE

MenAfriVac is a new vaccine manufactured by Serum Institute of India Limited. According to The Meningitis Vaccine Project (MVP), it is the first vaccine to gain approval to travel outside the cold chain, meaning that the vaccine can be transported without refrigeration or ice packs for up to four days:

“The meningitis A vaccine known as MenAfriVac®, created to meet the needs of Africa's meningitis belt, can now be kept in a controlled temperature chain (CTC) at temperatures of up to 40°C for up to four days, a decision that could help increase campaign efficiency and coverage and save funds normally spent maintaining the challenging cold chain during the “last mile” of vaccine delivery.”[2]

The data on the MenAfriVac vaccine is further backed by the World Health Organization’s website [3] and the Bill and Melinda Gates Foundation website. [4]

So, why does this information differ vastly from the information given on the manufacturer’s website? Serum Institute of India Ltd. stated under the section marked STORAGE:

“MenAfriVac should be stored and transported between 2-8ºC. Protect from light. The diluent should be stored at 25°C. It is recommended to protect the reconstituted vaccine from direct sunlight. Do not exceed the expiry date stated on the external packaging.” [5]

THE STORY FROM INSIDE AFRICA

Mr. M., the cousin of two of the vaccine-injured children, who currently remain critically ill and hospitalized, explained that many of the children reacted within 24 hours of receiving the vaccine. He said that at first the children vomited and complained of headaches, before falling to the floor with uncontrollable convulsions while bent over with saliva coming from their mouths.

He shared that on December 26, 2012, the Minister of Health and the Minister of Social Security visited Gouro, bringing with them two Members of Parliament. He said that after some discussion, they decided to evacuate approximately 50 paralyzed children to a hospital over three hundred miles away in N’Djamena, the capital city of Chad.

He added that the government responded to the tragedy by paying the parents money in a desperate bid to silence them, further stating that many of the parents are traumatized and confused.

As reported in La Voix, according to a member of the medical staff, as well as a comment from Dr. Daugla Oumagoum Moto, the director of the Center of International Health Support (CSSI), the reactions that these children have suffered are not typical of this type of vaccine against meningitis, which they say are normally fever, vomiting, and headaches, not the adverse reactions experienced by the hospitalized children.

A HEARTFELT PLEA FOR HELP

Fearing for their children’s present and future health, parents of these vaccine-injured children have begun asking...
questions, such as:

1. Was this a faulty batch of vaccines?
2. Did the vaccinators inadvertently vaccinate using an unsafe product?
3. Was the product out of refrigeration too long?
4. Were the vaccinators fully trained?

Mr. M. believes the children were left far too long without care and attention. He told me that, despite the state of the vulnerable children and many parents begging for help, the regional authorities failed to respond on time. The children were not seen by the only doctor in the region until a full week after their injuries!

He stated via email:

"In addition, the government and the media have gone silent about the tragedy, while there are still facts requiring clarification whatever contingencies. All this disturbs us and makes us fear the worst effects for the future. For the not knowing of what is going on behind the scenes of the Minister of Health or elsewhere (WHO, UNICEF). As parents our priorities is that how to tell our children, it is very sad that entire city is paralyzed. We are begging our government act quickly as possible to save our children but it is too slow and lack of motivation. Therefore we call assistance for everyone in the world to intervene." (his exact words from an email)

President Idriss Deby Itno announced at the beginning of the campaign that the vaccine was safe, secure, and would protect citizens against meningitis for ten years. [6]

Period,' said Marc LaForce, Director of the Meningitis Vaccine Project (MVP), a joint project involving PATH and WHO which developed MenAfriVac in less than ten years."[7]

Both of these organizations appear to have been silent since the tragedy.

CONCLUSION

This tragedy raises many unanswered questions. Why were 500 children vaccinated in a region that has only one doctor, who was unable to provide advice or treatment for adverse events until one week later? Why did the manufacturer of MenAfriVac specifically advise that the product should be stored and transported at much lower temperatures than The Meningitis Project claimed? Why were the parents of these vaccine-injured children paid hush money?

Why are vaccines being pushed so strongly in a country which lacks clean drinking water and basic sanitation services? UNICEF blames Chad’s recurrent outbreaks of disease, including meningitis, on this vital, common-sense need. [8] Why have major organizations spent $571 million on a vaccination project, when wells to provide access to clean drinking water have been constructed for less than $3,000 by the International Committee of the Red Cross? [9]

How can at least 40 children become paralyzed after receiving a vaccine, and no news organizations provide coverage of this disturbing situation? The media has gone completely silent. There appear to be no reports of this incident on any government website. The only available information, apart from this one newspaper report, appears to be buried on a small blog titled Le blog de Makaila, which has been reporting regular updates on the situation. [10]

Where are statements from the involved organizations – WHO, GAVI, PATH, UNICEF and the Bill and Melinda Gates Foundation? Why has this vaccination program not been suspended? What are these organizations going to do about the atrocity that has happened in Gouro?

Missosorich

simple dont accept western vacciness

Colonel78

So India is a western country now?

EllenDiann

If you are looking to the makers/drug companies of vaccines for answers, you may as well seek truth from satan. Time to just KNOW these drug companies are greedy liars and so are all of those leaders who take the bribes from the drug companies. People are being sold like cattle by your leaders to the drug companies frankenstein experiments.

Brian

People need to be very skeptical when they are told that they or their children must get vaccinated. My rule of thumb is, its my body and therefore it means that it will be I who is going to suffer the side effects of some drug that I was told to take for my own good. But when the day comes that if I take a drug and the authorities are the ones that get sick, then I will do as they tell me.

4 Our Future

Bill Gates has said many things that call into question his altruistic facade. Check out

“Bill Gates on Population Control” by Willie Murphy on U Tube. Once again main stream media is silent on a very serious matter. Thank you Christina for bringing this to our attention!

http://www.facebook.com/diogenes.diaz.524

Diogenes Diaz

do not accept any vaccine....

Nancyd529
This is a disgrace.!!! I will post and do my part to put it out there,, The manufacturer or the vaccine should have sent medical help as soon as the first illness ...These are children ...GOD HELP THESE CHILDREN and SHAME on the government also!

Wes2009

George Bernard Shaw said “As well to consult a butcher on the value of vegetarianism as a doctor on worth of vaccinations.”

notsofree

To quote a genius (Alexander Hamilton): ”The conscience of good intentions disdains ambiguity.” These busybody, do-gooders are always telling us that the world will not survive due to “climate change” and global warming and of course “climate change” and diminishing resources are due to human activity and population explosions. From one side of their mouth you hear “save the children/save humans” just buy our vaccines at $30 billion per year. Out of the other side of their mouth they say “humans are causing all the problems with the environment, and we need to limit human acitivity so you need to buy $30 billion worth of contraception and abortion.”

The few who understand the swindle are known as cooks, quacks, cracked, or just plain weird!!! I call us realists!!

If we lived in a world of ultimate cleanliness, nutrition, fidelity; hard work, understanding death in a fallen world, forgiveness of our transgressions when begged, then we would have less disease, less population, less fear, less global crises, less medication, and less govt. control.

Of course that would defeat the purpose of big pharma sales/govt. intervention, high taxes and world manipulation.

Us cracked, crooked, weird quacks will just have to learn to bow down to the altar of “pseudo-science” or risk becoming inconsequential in the worlds eye.

Concerned CapeTown

The authorities at the FDA should be charged with, “Crimes against Humanity”. With the decisions that they make, they have hundreds of thousand of deaths on their hands, and the buck has to stop somewhere. There sure is enough evidence to prove that they are guilty. Who is going to get the ball rolling….?

Giorgiotremante

Lachaparra73

Wow, I am praying for all the families involved in this situation. So sad :

Giorgiotremante

THIS EVENT FOR THE “FIRST TIME IN THE WORLD”

To the President, of the Italian Republic Giorgio Napolitano, and all the Heads of State of the world.

This toponym, in which only two names are engraved, Mark and Andrea Tremante, wants to portray the image of many other beings, for now, still unnamed, which were sacrificed on the altar of a speculative pseudo-science that still dominates in our state in economic terms by imposing her will that translates into the practice of compulsory vaccination. Only the Veneto Region, across our country, has officially taken off since January 2008. Because the other Italian regions have not followed this example? Because the drama of adverse reactions, including death, vaccinations, and was still wants to remain a “TABOO’”? Because these “VICTIMS” are not considered “HEROES” like those who died in war, they say, for the good of the country? I ask you, Mr. President, to appeal to his sensibility and conscience of every Italian, she is legally, so that these unfortunate creatures can rest in peace wrapped in the “tricolour”. Tremante George, father of Mark, Andrew and ….. Albert.

The truth

I think Missosorich means its just best to know the risks of any and all vaccines before injection. After there in your body you can’t take it back and get a refund.

http://www.facebook.com/people/Lowell-Hubbs/1285214003 Lowell Hubb
Here is the key statement made, asking of course the right and one of the most important questions. If the concern is actually the health of these children and people, WHY is there no effort made to correct what has always been the largest factor in the transmission of illness, lack of clean water, and less than adequate sanitation?

[ Why are vaccines being pushed so strongly in a country which lacks clean drinking water and basic sanitation services? UNICEF blames Chad’s recurrent outbreaks of disease, including meningitis, on this vital, common-sense need. [8] Why have major organizations spent $571 million on a vaccination project, when wells to provide access to clean drinking water have been constructed for less than $3,000 by the International Committee of the Red Cross? [9 ] ]

The real history of vaccination amazingly has been altered from its factual and true historical account since day one. There is literally nothing left standing for information that has not been altered and misrepresented, when the opposite outcome was true. Then you can add all the more harm than good that vaccines have done, which they deny as well, and always will; nothing is ever enough. People must research and educate themselves from as well the unbiased and complete information, and the available unbiased science that the CDC ignores. Much of that is right on the Pubmed site. They must examine for themselves both sides of the information and claims made, and decide for themselves which information in the balance is correct. Otherwise they will simply remain entirely mislead as to the actual safety and effectiveness of vaccines. Your choice.

History Repeats Itself: Lessons Vaccinators Refuse To Learn By, Jennifer Craig, PhD

esdave

The corrupt FDA IS IN THE PAY OF big corrupt pharmaceuticals so they can peddle their poisons at will, if they could have covered this up ,would they then have tried to sell it to europe and other countries, Its all done for profit, stuff to the people FDA motto , politicians take note bring them to book , thats if you are also not in Big pharma's pay, and the way the CORRUPT FDA operate by trying to ban natural products that have NO side effects, makes me wonder.

The FDA and others think they can operate with impunity, well with sites like VAC TRUTH and people like Christina England they never will ,because PEOPLE POWER WILL bring them to book.

Jo

I would be afraid of anything Bill & Linda Gates are involved with. They support Planned Parenthood and Abortion.

http://www.facebook.com/people/Desiree-Rover/100003340558910 Desiree Rover

These children have not been vaccinated against the disease, they have been INJECTED WITH the disease…

Mega doses of intravenously administered vitamin C (sodium ascorbate) will help to limit or completely undo the damage. Dr. Frederic Klenner proved this in 1948 with a group of 60 children paralyzed with polio. ALL of them, even the ones on life support, healed COMPLETELY.

http://nutri.com/49/

I hope that by now it is clear that vaccination is a weapon of mass destruction. Read the thorough explanation on http://www.drcarley.com

Denise M Sharar

They will reap what they sow from now on. ass kicking catholic and supporter of the mormons.

Denise M Sharar

arrest whoever is involved. I only speak once.

http://twitter.com/Gypassmintrkat Katherine Tomsich

This is the kid of thing that happens when cronyism runs the medical world. They are very superstitious about the concept of vaccination and will not hear anything against it, even when people die.

http://www.facebook.com/people/Desiree-Rover/100003340558910 Desiree Rover

One never gets VACCINATED AGAINST a disease. One always gets INJECTED WITH a disease. These dramatically paralyzed children clearly show: vaccination is a weapon of mass destruction. Read all the important details on http://www.drcarley.com

As for healing these poor children: in a polio myelitis epidemic of 60 children in North Carolina Frederic Klenner proved in 1948 that massive doses of vitamin C (sodium ascorbate) could heal even the ones who had been so paralyzed that they already were on life support.

All 60 children healed completely thanks to Klenner’s vitamin C approach, see http://nutri.com/49/
It is recommended to protect the reconstituted vaccine from direct sunlight.

So to save transportation costs and risk lives the "product" is shipped as a concentrate and reconstituted on "the scene"?

Does anyone see problems with this?

So we now need to ask a few more questions.

- Where was the "vaccine" reconstituted?
- Who reconstituted the product?
- Under what conditions?
- What testing was done on the reconstituted injectable product?
- ect. ect. ect.

NO VACCINATIONS.

I am shocked again!! WTF they doing with us?! and how long small group of rich people will decide how we have to live? they poison us on every possible way!? PEOPLE WAKE UP!

MERCURY IN VACCINATES, FLUORIDE IN TOOTHPASTE AND THE WATER, CHEMTRAILS, GMO FOOD, CONSTANT STRESSES, MERCURY LIGHT BULBS. they want to kill us I telling you…

I've just worked my way through all of the references above cited at the end of the article. Apart from the unlinked initial reference, none of them say anything about any children dying. They are links to either the information on meningitis vaccine or the cold chain issues. I have also put the complete text of reference number one into google, and apart from articles quoting this one, it does not appear to exist.

I am interested to discover where the source information comes from.

http://www.facebook.com/people/Pat-Schwarz/100001505165550 Pat Schwarz

Maybe this is a project of genocide. Poor country, poor, innocent people, experimental vaccine, not enough medical care, silence from media, children. Maybe this is the first large scale experiment with this vaccine using them as guinea pigs.

http://www.whale.to/ John Wantling

I wonder how long it will be for the people of Africa to figure out that vaccines are very dangerous and that the vaccine manufacturers are corrupt and ruthless, and the governments, in this case Africa, are more concerned with human greed than the health of the nation/world. I wonder if these children have suffered from polio caused by the vaccine poison or have they suffered brain or neurological injury or whatever the case maybe. If it is polio, they may recover if treated properly, but the chances of that are remote as even the medics dont know what they are doing. Vaccinating people who dont have the basics of health, such as clean drinking water and nutrition is asking for terrible trouble. This is reckless and mindless to say the least, but this is what they do because its good for business and human greed will always come first. John Wantling, Rochdale, UK

Thats exactly what it is ……..genocide…..and if we dont stop it now …….all children everywhere will be killed off. This is why I didnt vaccinate my grandson and they got really mad at me when I asked them why their trials were only done on black and native children. They said they didnt do that anymore……….why would they do it in the first place……….vaccines are so wrong for our bodies………

I'm with Jo.-

I too do not trust the Gates family. Publicly Bill has spoken in favor of de-population.. Their P.P. support is nauseating. Poor Africa, please excuse our malice.

Sadly, the people in the USA still do not know how dangerous vaccines are. Most people like they are safe and that if you don't vaccinate you are foolish.

http://www.whale.to/ John Wantling

Its the same in the Uk, the masses are blind and this is why vaccines continue on as people are stupidly ignorant and follow like sheep and easily manipulated. Its very sad but that is how it is. A bloke I know was well pleased with getting a flu jab, he said it was free so he was very excited, a real bargain. If that vaccine had paralysed him, then he may think differently. They learn the hard way.

http://www.whale.to/ John Wantling

I think that america more than anywhere is in a state of self-destruction. Terrorists must think to themselves, why should they bother with america when they are doing a far better job than any terrorist could do. Self destruction is madness, it weakens the nation and all the children end up autistic and damaged in some way. Its hard to understand such a mentality but this is what they are doing and human greed and ignorance is one of the main
THE USA AND ENGLAND have been the LEADING killers of children in the WORLD for at least 200 years and americans claim to care about the children, all the while sending the likes of BILL GATES to poison the children all over the world (like the 40,000 children who got polio in INDIA from BILL GATES polio vaccine) and americas the worlds worst child killers think the lord hasn't noticed, I can tell you HE HAS NOTICED,HE has also told HIS FOLLOWERS to get ready he's going to DESTROY AMERICA because of people like BILL GATES murdering children all over the world.

THE DEATH TOLL from american vaccines has surpassed all wars in history. ANYONE STUPID enough to allow anyone to inject anything into their children should have them taken away because there to stupid to be raising children, AND ANYONE WHO INJECTS ANYTHING into a child IS A STONE COLD KILLER, are these the sort of people you would trust to provide medical care for your children, DON'T LET a fancy white smok fool you, even killers can buy a clean white smok to wear, THAT DON'T MEAN HE AIN'T A KILLER OF CHILDREN, look at BILL GATES he's killed more children then probably the queen of england has, and she has killed or caused the death of millions of children, DO NOT LET ANYONE INJECT ANYTHING INTO YOUR CHILD.

I know most americans can't read, SO please tell the people who have never read the bible, THE LORD SAYS ANYONE HARMING MY LITTLE ONES, WOULD MUCH RATHER HAVE A MILLSTONE TIED AROUND THEIR NECK AND BE CAST INTO THE SEA, COMPARED TO WHATS GOING TO HAPPEN TO THEM FOR HARMING MY LITTLE ONES, good thing americans don't read, OTHERWISE THEY'D BE SCARED TO DEATH. JUDGEMENT is about to fall on americas he'S shown me what about to happen, WOE, WOE, WOE to america your really in for it now.

A gift from Bill and Melinda Gates. People need to realize the goal of these mass murderers and its not to prevent disease but to kill. These vaccines a laced with poisons including mercury do its no wonder these poor children paralyzed.

An irish visionary recently had jesus appear to her warning of a global plan to poison people especially children through vaccinations. see the websites ‘the warning second coming’

 Answer: Eugenics

 Gates should be held accountable for this crime against these children. He knew full well of what would happen to these already compromised children. Give them vaccinations instead of clean water, sanitation, healthy foods. Karma please tend to this quickly.

Absolutely correct – worse than experimentation so often undertaken in Africa by Pharmaceutical Companies at the cost of lives for many and quality of life for many others. Who are these moguls who decide who should be on Earth and who should not – I do know most of them, not personally, I am glad to say, but the Gates name comes up frequently as they disguise eugenics through, apparent, philanthropy. We are here to create life not destroy it. They should be brought to account as were the perpetrators of the Holocaust? $571,000,000 when so much more could be done through prevention measures involving basic life necessities – their Government must also
be accountable for this tragedy.

Mike, Tasmania, Australia

Nothere

http://www.thenigerianvoice.com/nvnews/105057/1/chad-40-paralyzed-after-meningitis-vaccine.html. No child has died as of yet. They are paralyzed. Parents were paid money to hush them.

SPMedia

Christina England, the author, unfortunately all the sources you’ve referenced say nothing about its claims of 40 children being paralyzed.

To that NOT even being consistent in this article, it states 40 child paralyzed, yet a few paragraphs after, it’s states that “50 paralyzed children.” This story is just that, a story, and filled with a ridiculous amount of holes in it.

I actually read through all the references that were sourced, and NOTHING states what this article suggests.

It’s unfortunate that every other website just regurgitates the same misinformation that this site put out.

“Mr. M”? – as this article states. Right!

Nice making up a story to get traffic to your website – next time just title it as FICTION?

Brideharkin

I think she mentions the problems caused by the media NOT covering it, and the information was only leaked in an email, describing how it is being hushed. It would be a great shame if someone like you stopped them getting the story out because you wanted proof based on the other sources, which are likely corruptible anyway. These stories are not uncommon but are covered up and it is important to know where there are rumours or smoke on these issues. Serious consideration is needed, and to simply slam it based on asking for more evidence than someone’s plea for help in an email is neglectful. We have a social responsibility. It seems you are more after journalistic points in essay writing than the people involved.

Brideharkin

Also it states AT LEAST 40, not limited to 40

Brideharkin

Yes it seems they pluck areas they feel they can control as live testing grounds.

chad—-Gouro

Hello this Mr M from Chad direct; After this website publish the news about the tragedy. The prime minister of Chad has visited the hospital where the paralyzed children are now accommodated. The news now on Chad national TV prime minister with children. I got the video but here internet is very butt. For those who has doubt just give a little time to upload the video.

Hubert

I follow this "SCAM" for some time know. Most people are not aware who are the the big players in the Pharmacuetical Field. It's not a conspiracy theory. The Rockefeller's running this scams for population control. The Governments are also dictated and political "PROSTITUTIENS" to this Zionist "RULERS". This dissippleebel scum stopping any ÄLTERNETIV>cures when everone comes up. I would suggest one has to educate them self, in that matter to BEAT this "PARACITICEL SCUM"

Annie Linux

http://childhealthsafety.wordpress.com/graphs/ ... read about; Vaccines Did Not Save Us – 2 Centuries Of Official Statistics. This is the data the drug industry do not want you to see. Here 2 centuries of UK, USA and Australian official death statistics show conclusively and scientifically modern medicine is not responsible for and played little part in substantially improved life expectancy and survival from disease in western economies.

The main advances in combating disease over 200 years have been better food and clean drinking water. Improved sanitation, less overcrowded and better living conditions also contribute. This is also borne out in published peer reviewed research:

SPMedia

Getting your information from absolutely no credible or reliable sources is not quality journalism, it’s simply hearsay, and any writer knows this – although it’s seem to escape this writer’s grasp.

The reason the media isn’t covering it, because there’s nothing that ties back to the claims of this article – not one single item. Anyone can say anything about anything, but that doesn’t make it so, especially if it’s from someone in an email to someone else who somehow thinks it could somehow be relevant. Right!

You state, "... because you wanted proof based on the other sources, which are likely corruptible anyway."
Really? You lay claim to a source being corruptible on evidence of no source at all, but rather assume any references would just be wrong, so what’s the point in checking it’s authenticity - really? Is that how you critically analyze something to be true or not?

Sorry, but I don’t. I’d much rather have reliable sources backed by references, which she did source, but say absolutely nothing about the children falling ill. I know vaccines are toxic and should not be given in most cases, but to make up a story about it paralyzing children and use these children as a basis to lay harmful claims, is libelous and just wrong for anyone to do just to sell their books on vaccines, as does this writer and website.

For shame anyone using children to pull on the heartstrings of people.

And yes, I am very aware how U.S. federal agencies are a major force behind the deaths and injury of millions of people.

I dont doubt you are genuine but what would be the motives of getting out such a story? I am from Chad and I have friends near this area who say there are reports of quite a few children being very ill due to vaccinations they were administered. My question is if so why are the mainstream media quiet about it perhaps because its african children and their lives are not worth alot, or perhaps they are trying to get their products out too market and this sort of mishap wouldnt be good for business, or perhaps its not news worthy, interestingly similar thing happened in america in a small town forget the name but a few kids were diagnosed with autism and its been linked to vaccinations. Children today face more than 62 various inoculations before they are 2, and they are not providing the number one cure for any disease good food.

Put yourself in the shoes of the people who run this website; they have to make money somehow to keep the website running; how do you think they do that?

The World Health Organization has nothing about this story. I'm not trying to demonize this website, but there's not one thing that speaks the "truth" about 40 or 50 children being paralyzed by vaccines. Sorry.

Now there's a quality comment.

Christina England

Just to answer your questions.

The newspaper is not online, so I am afraid that you will never find it. Some newspapers are not and sadly this is a fact. La Voix is a very small local newspaper and I have been informed that Internet connections are extremely poor in this area.

Computers and Internet connections are extremely expensive and they cannot afford to put this online.

As for 40 or 50 children affected.

The newspaper said at least 40 and my informant Mr M said the the number was 50. As he is a relative of the two victims photographed I gave both figures.

Mr M cannot be named for safety reasons. However, if you look very closely at all the comments you will see that he has bravely come on to VacTruth and commented.

As for my integrity. My report is true. I have more information and facts to come that will prove this. It takes time to gain the information and to write an article. I have written two for Vactruth this week.

I now have more facts on this tragic situation which I will present them in full to readers of the VacTruth site within the next few days.

Christina

I would just like to say thank you to all of the readers who have commented on this article.

Christina

Thank you Brideharkin There is more to come but as you say it is being hushed up. Christina

Westic
A link to the actual source would be nice.

Hate to think you just made the whole thing up Christina.
The story by Andre Byakzahbo at La Voix and where you got the comments of Mr M (is his life in danger??) would go a long way to allaying my fears you fabricate a lot of your blog content.

Cheers.

Looking forward to some supporting links.

SPMedia

That's great to hear. I look forward to more information on this topic.

http://profile.yahoo.com/2LMHOAG6VLWQN5NMRE656R4K2AU George Butler

A bunch of BS. I have few doubts to the truth of all this !!

Friend

Here is a local source from Chad which confirms your story. The article says, at the very end, that 'According to a hospital source, 50 children were paralyzed, 90% of which are girls…'

http://www.africatime.com/tchad/

Ariel Berger

So what if only 40 children got paralyzed?…460 did not; and in the long run even those that are paralyzed will experience the healthy benefits from the Vaccine… God Bless That wonderful humanitarian Bill Gates and our beloved Medical Masters who have created so much healthy benefits for us all…

http://profile.yahoo.com/BVFJ5Y6ACRIBX2DQ4SHN8WMFO4 Carol Brune

Internet access and computers are extremely expensive. Thus Mr. M and sol2soul?? must be rich? They can send emails and comment on this blog. Hmmmm how do they manage this without internet and a computer? Did they use the hush money to buy themselves a computer and internet connection? I hope they rejected the hush money seeing as they have spoken out now. (IF this whole thing about hush money is true. IF this whole story is true…..)

http://www.facebook.com/people/Lowell-Hubbs/1285214003 Lowell Hubbs

Almost as good as yours, Ken Reibel. The vaccine more harm than good denialist of the year; editor of the autismfalsenewsbeat blog. Is there anywhere left on planet earth you have not spread your article reply posting selective ignorance and denial? You know, like Skippy Peanut Butter on a half moldy slice of bread? Who pays you for that, Paul Offit?

http://www.vacfacts.info

Debs

think you would feel different if it was your child that was paralyzed Ariel and WHAT benefit will they receive from the vaccine??? There vegetables!

Diogenes

I agree. Nobody has any information on this that does not originate from Ms. Christina England at vactruth. Absolutely no corroborating information at all. None. La Voix is conveniently without web presence. Mr. M is conveniently anonymous. Do either of these entities exist in reality?

Ms. England states “Mr M cannot be named for safety reasons.” but apparently La Voix can report on the story, in depth, with impunity. Does anyone believe this?

Now Ms. England states she has more corroborating information which she will reveal shortly. If it is of such a quality that the readership cannot determine if it is real or made up by a hoaxer I suggest she not bother and devote her efforts to finding some real evidence that this episode in fact took place as related.

As it is now, Ms. England is the only source for this information and it is of a quality that it could be a completely made up lie as there is no way to check. The possibilities are: Ms. England has valid info and unfortunately published it before verifiable sources could be found. Ms. England is the target of a lying hoaxer. Ms. England is in fact the perpetrator of a hoax.

Hoping to see some "verifiable" corroboration as should have been presented in the first place. Right now this story stinks like something from a lunatic conspiracy site.

What is it that you find so unbelievable SP, about children being paralyzed by a new and unproven vaccine? There are over 80,000 cases of AFP worldwide that exist for the most part, in only the underdeveloped countries that are using the oral polio vaccine. Do you deny that too? The WHO blames it on found existing enteroviruses, and claims it unrelated to the vaccine. Oddly, those found viruses only exist in countries that use that vaccine, and have significant clean water and sanitation problems.

I doubt that any part of this story has been fabricated; nor do I believe it to be any unfounded mistake, regarding
the claims made. Yes, all the articles do link back to this article, but there is simply too much to it to be any sort of a fraud. To bad the CDC doesn’t use the same burden of proof, when they made the claim that vaccines were safe and effective.

Maenolle

That article appears to be this one above – the author is the same, and after running it through Google translate, (my highschool french was not good enough!) it is the same article as the one that appears on this page.

Maenolle

That article quotes this one as the source…

Argus

Christina, it appears that you just made this whole thing up. Numerous commentors have asked for collaboration of your claims, yet you seem to be unable to supply them. It seems like you frequently have this problem with your articles.

I'm wondering what your motivation could be. Is it, as someone suggested, to drive traffic to this web site? Does Jeffry give you a cut of the ad revenues?

VaccineRisks

Brilliant investigative journalism by Christina E, describing tragic cases of paralysis after the MenAfriVac meningitis vaccine. These vaccines were not stored in a cool temperature.

Hundreds are still suffering after a meningitis vaccine experiment in Norway in the 90’s. Both vaccines contain mercury and aluminium, a dangerous combination. Aluminium increases toxicity of mercury up to 100 percent.

The MenAfriVac vaccine should be immediately withdrawn, irrespective of temperature conditions.
